01 Overview & Quick Facts

The Ertiga is Suzuki Kenya's practical seven-seat MPV. The local range lists three 1,462 cc petrol derivatives: GA manual, GL manual and GL automatic. Its 2,740 mm wheelbase and 45-litre tank support a family and shuttle role, while the MPV body puts passenger access and flexible seating ahead of SUV styling. For ERTIGA GL 5D 1462p 4AT, the local specification identifies engine 1.5-litre petrol, displacement 1462 cc, power 105 kW, torque 138 Nm, transmission 4-Speed Automatic, drive layout Front-wheel drive, seating 7 seats, length 4395 mm, clearance 180 mm, fuel tank 45 litres. The Kenya listing places this mpv in a petrol part of the Suzuki range. The available local derivative names are ERTIGA GL 5D 1462p 4AT, ERTIGA GL 5D 1462p 5MT, ERTIGA GA 5D 1462p 5MT. Those names matter because a gearbox, wheel package, drive layout or seating arrangement can change the way a vehicle works on the same road. Where the local page does not publish a precision number, the sensible buyer response is a written question to the authorised distributor, not a number borrowed from a...

03 Pros, Cons & Buyer Summary

● STRENGTHS ✓ Official Kenya range listing ✓ Country-specific source trail ✓ Clear route-led buying decision ✓ Exact local derivative names where published ✓ Open source gaps are not disguised as facts	● CONSIDERATIONS ✗ Retail price requires a current local quotation ✗ Equipment can vary by derivative ✗ Some precision fields are not published locally ✗ Running cost depends on route and load ✗ Support terms should be confirmed before delivery
---	--

Buyer Summary

"Ertiga is the sensible Suzuki choice when seven seats and passenger access are the priority."

Ertiga is the sensible Suzuki choice when seven seats and passenger access are the priority. The automatic is convenient; the manuals may suit buyers focused on control and value. It should be chosen for people-moving, not mistaken for an off-road SUV. The decision is strongest when the exact Ertiga derivative, local equipment, price and support package all match the owner's route. A different grade may be better value even when it carries fewer visual extras, while a larger vehicle may be wasteful if its capacity is rarely used. That is a practical conclusion rather than a universal ranking.

City Driving	The Ertiga's 4,395 mm length is manageable in town, and the MPV doors make loading passengers easier than a tall wagon with a narrow opening. Compare the GA, GL and automatic equipment in the actual quotation. A full passenger test is worthwhile because access and ventilation can matter more than the trim label. The Ertiga should be driven through a normal weekday rather than judged from a quiet dealership loop. Check visibility, access, parking, climate control, storage and the exact safety equipment fitted to the quoted mpv. A short route should include the awkward turn, speed hump, ramp or loading point that normally exposes a vehicle's weak point. If it cannot be tested at the dealership, ask for a second drive or make the question part of the purchase record.
Highway	The 1.462-litre engine is asked to move a full cabin, so highway performance should be judged with seven occupants or an honest equivalent load. Manual drivers can manage hills directly; the automatic is calmer in queues. Check braking, steering and seat comfort on a longer route rather than relying on a short showroom drive. Use the expected passengers and luggage when judging the Ertiga on an open road. Engine response, gearbox behaviour, braking, seat support, tyre noise and fuel planning are linked to load and speed, so an empty vehicle can give a misleading impression. The most useful result is a route-specific decision: how often the vehicle will travel, where fuel or charging stops are available, and which service support is reachable when the trip is finished.
Off-Road	The Ertiga is a road MPV, not a four-wheel-drive utility vehicle. Its clearance may handle ordinary access roads, but muddy tracks and flood water need a different brief. Correct tyre condition and conservative speed matter when the vehicle is full. Published clearance or four-wheel-drive equipment should be read alongside tyres, wheel size, payload and driver skill. The Ertiga cannot be made into a different vehicle by optimistic wording, and a wet road can expose limitations that a dry launch event hides. For occasional rough access, moderate speed and sensible line choice may be enough. For regular remote work, the buyer should budget for recovery equipment, tyre protection and a service plan that supports the route.

Best For

It suits a family, school-run operator or small passenger business that needs seven seats without the size of a large SUV. The third row should be tried with the people who will use it, and luggage space should be checked with all seats raised. Buyers who spend most time on rough tracks may prefer a higher-clearance vehicle.

04 Variant Comparison Matrix

All 3 variants of the Suzuki Ertiga side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
