01 Overview & Quick Facts

Hyundai Staria is listed for Mozambique as a mpv powered by a locally listed powertrain. The exact record identifies 2.2L Diesel Turbocharged engine, 8-Speed Automatic, FWD and 9 seats where those details are published. This buyer-facing account is about how the vehicle fits real Mozambican routes, ownership decisions and dealer conversations. The local range context includes Staria 2.2 CRDi 8AT. Those names should be kept separate because gearbox, driven wheels, body configuration and equipment can change the ownership experience. The mechanical headline is 2.2L Diesel Turbocharged engine; maximum power is 130 kW and maximum torque is 430 Nm. A buyer should match those figures to payload, road gradient, traffic and the frequency of long-distance travel rather than treating one number as a complete verdict. Ground clearance is recorded as 186, while the efficiency record is 11.2. These values are useful for planning, but the final vehicle should be checked against its delivered tyre, wheel and equipment specification. Mozambique buyers often need one vehicle to move through dense urban streets, uneven access roads, inter-city highways and seasonal weather. The useful question…

Staria 2.2 CRDi 8AT	Diesel	8-Speed Automatic	Research Configuration	**On Request**

03 Pros, Cons & Buyer Summary

● STRENGTHS

✓ Clear body-role fit when the named derivative matches the buyer's work or travel.

✓ The listed 8-Speed Automatic gives a defined starting point for comparison.

✓ The FWD layout can suit the documented route and load role.

✓ Confirm the exact delivered equipment before treating this as a purchase advantage.

✓ Confirm the exact delivered equipment before treating this as a purchase advantage.

✓ Confirm the exact delivered equipment before treating this as a purchase advantage.

● CONSIDERATIONS

✗ Exact Mozambique equipment and cash price still require local confirmation.

✗ Dealer support and parts reach should be checked before purchase.

✗ A related trim may not carry the same safety, comfort or load equipment.

✗ The buyer should request written confirmation where local evidence is incomplete.

✗ The buyer should request written confirmation where local evidence is incomplete.

✗ The buyer should request written confirmation where local evidence is incomplete.

Hagalu Editorial Verdict

> *"A mpv whose value depends on exact local equipment, route fit and dealer support."*

Hyundai Staria makes sense when its mpv layout, powertrain and 8-Speed Automatic match the buyer's normal work and travel. The strongest case is practical fit: seats, cargo, road ability, dealer support and a clear Mozambique quotation. Its weaker case is an assumption that a nearby trim or foreign-market specification is identical. Verify the delivered vehicle before signing. The buying question is practical rather than purely numerical. Its weaker case is an assumption that a nearby trim or foreign-market specification is identical. That distinction matters when a vehicle is used in several roles during the same week. Verify the delivered vehicle before signing.

City Driving	In Maputo and other busy urban areas, Hyundai Staria needs to be judged as a daily tool, not only as a specification sheet. Parking width, visibility, steering effort and low-speed transmission behaviour will shape the experience. Check door clearance, turning space, seat entry and the storage used every day. Traffic, heat and short trips can change the practical value of the powertrain. The correct tyre and wheel combination should be confirmed before ordering. A careful comparison should keep the named derivative, equipment and local quotation together. The correct tyre and wheel combination should be confirmed before ordering. The result depends on how the vehicle is loaded, driven and supported after delivery. Check door clearance, turning space, seat entry and the storage used every day.
Highway	For inter-city journeys, Hyundai Staria should be assessed for stable cruising, overtaking reserve, seat support, luggage capacity and fuel planning. The listed 8-Speed Automatic and FWD are part of that conversation. Confirm cooling performance, emergency-spare arrangements and roadside support. A full passenger and luggage load may alter acceleration, braking and efficiency. Ask the dealer to explain the warranty and service schedule in writing. The buying question is practical rather than purely numerical. Confirm cooling performance, emergency-spare arrangements and roadside support. That distinction matters when a vehicle is used in several roles during the same week. A full passenger and luggage load may alter acceleration, braking and efficiency.

Off-Road	On uneven access roads, the Hyundai Staria configuration should be matched to ground clearance, tyre sidewall, payload and recovery planning. The recorded clearance is 186; it does not replace a safe route assessment. Check whether the chosen derivative has the drivetrain and protection expected for the route. Avoid treating a marketing badge as proof of a specific off-road feature. Load control and correct tyre pressures remain essential. A careful comparison should keep the named derivative, equipment and local quotation together. Load control and correct tyre pressures remain essential. The result depends on how the vehicle is loaded, driven and supported after delivery. Check whether the chosen derivative has the drivetrain and protection expected for the route.
Best For	Hyundai Staria suits a buyer who has a defined reason for choosing a mpv: urban travel, carrying work or personal mobility. The relevant configuration uses the listed powertrain, 8-Speed Automatic and FWD. Prioritise the exact seat, cargo and service requirements before selecting a grade. A clear dealer quotation is part of the ownership decision. A careful comparison should keep the named derivative, equipment and local quotation together. Prioritise the exact seat, cargo and service requirements before selecting a grade. The result depends on how the vehicle is loaded, driven and supported after delivery. A clear dealer quotation is part of the ownership decision.
