01 Overview & Quick Facts

Four derivatives arise from two independent choices: CS or CE equipment, then five or seven seats. Every version uses a 1,494 cc turbo-petrol engine producing 138 kW and 300 Nm through a seven-speed wet dual-clutch transmission to the front wheels. Changan publishes combined consumption of 7.5 litres per 100 km, a 55-litre tank and 177 g/km of CO2 across the range. With no stronger flagship engine, buyers can focus on how many seats they genuinely need and whether CE's comfort and assistance package earns its premium. Five-seat derivatives offer a published 620 litres of luggage room with all seats up. The seven-seat versions provide 230 litres with all seven positions in use. A household should install child seats, raise every seat and load its normal bags before choosing. Seven seats on a data sheet do not establish adult comfort, easy access or holiday luggage capacity. CE adds heated mirrors, microfiber-leather trim, electrically adjustable heated and ventilated front seats, panoramic sunroof, adaptive cruise control, 360-degree camera, front sensors, forward-collision warning, automatic emergency braking, a larger digital instrument panel, powered tailgate and…

Body Style	Five-door SUV with five- or seven-seat configurations
Launched	2025
Generation	Current South African CS75 Pro generation with two equipment grades and two seating configurations.
Fuel Types	Petrol
Colours	White is shown on the current South African page; confirm the complete orderable colour list and any grade restrictions in writing.

Pretoria	**ZAR 445,078**

* On-road prices are estimates including registration, road tax and insurance.

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: SUV
- ✓ Fuel type: Petrol
- ✓ South African price: R429,900
- ✓ Engine: 1.5-litre Turbocharged Petrol
- ✓ Power output: 138 kW
- ✓ Transmission: 7-Speed DCT

● CONSIDERATIONS

- ✗ Exact equipment for CS75 Pro can vary by derivative.
- ✗ Real fuel use for CS75 Pro depends on route, load and weather.
- ✗ The written CS75 Pro quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate CS75 Pro budget.
- ✗ A short CS75 Pro test drive cannot represent every ownership route.
- ✗ CS75 Pro capability should not be inferred from body styling alone.

Hagalu Editorial Verdict

> *"CS75 Pro deserves a closer look when its price, equipment and powertrain fit the owner's route."*

Current South African CS75 Pro generation with two equipment grades and two seating configurations. White is shown on the current South African page; confirm the complete orderable colour list and any grade restrictions in writing. CS75 Pro is easiest to recommend when the buyer can point to a concrete benefit in a power output of 138 kW and accept the limitation represented by a front-wheel drive drivetrain. A fair review of CS75 Pro should end with the owner's route, not a universal verdict. The combination of engine of 1.5-litre Turbocharged Petrol, a power output of 138 kW and a 7-Speed DCT transmission can be valuable for the right driver for CS75 Pro. The same package may feel expensive or inconvenient if the vehicle spends its life in a different role for CS75 Pro. Drive the exact version loaded as it will be used, then read the service, warranty, tyre and insurance costs beside the purchase price for CS75 Pro

City Driving	Around town, CS75 Pro should be judged by repetition rather than a single burst of acceleration. The relevance of a front-wheel drive drivetrain becomes obvious on a busy weekday, while a South African price reference of R449,900 is worth checking before a purchase built around tight parking or frequent loading
Highway	The body is 4,730 mm long, 1,870 mm wide and 1,720 mm high on a 2,786 mm wheelbase. On a South African freeway or inter-city road, take the CS75 Pro out with the load it normally carries. A 7-Speed DCT transmission gives context, but a number cannot show how a 7-Speed DCT transmission feels on a gradient
Off-Road	If the CS75 Pro will leave smooth tar, test the actual road rather than the image around it. Check a South African price reference of R449,900 against the stated drivetrain. The rough-road question has to be answered by hardware for CS75 Pro. On a known gravel or farm access section, inspect clearance, tyre sidewalls, underbody exposure, approach angles and recovery access for CS75 Pro. A 7-Speed DCT transmission may help, but neither a tall bonnet nor petrol alone creates four-wheel drive, low range or a published wading ability for CS75 Pro. Keep the speed and route within what the exact local derivative can support for CS75 Pro

© 2026 Hagalu Automotive Research

Best For	A shopper researching CS75 Pro should separate need from showroom appeal. If a power output of 138 kW solves a problem every week, it deserves real consideration

04 Variant Comparison Matrix

All 4 variants of the Changan CS75 Pro side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
