01 Overview & Quick Facts

Ownership and cabin detail is not just a brochure exercise: infotainment screen references around Ford SYNC 4; warranty cover listed as 4 years / 120 000 km; service or maintenance cover listed as 6 years / 90 000 km optional plan included in listed price, and trim-by-trim equipment still matters when comparing monthly cost. Seventh generation Mustang with S650 platform. The Mustang has a clearer South African buying case when its sedan shape is connected to the work it must do. The useful starting points are a 6-Speed Manual transmission and a rear-wheel drive drivetrain; together they explain more than a badge or a screen size. For a buyer searching the Mustang price and specifications in South Africa, the interesting part is the trade-off rather than the feature count. A power output of 213 kW @ 5500 rpm describes the opportunity; a 6-Speed Manual transmission and a 6-Speed Manual transmission describe the conditions around it. For this South African sedan, the owner should weigh engine of 5-litre Naturally Aspirated Petrol against the route, load and cost of the vehicle. A…

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: Sedan
- ✓ Fuel type: Petrol
- ✓ Engine: 2.3-litre Turbocharged Petrol
- ✓ Power output: 213 kW @ 5500 rpm
- ✓ Transmission: 6-Speed Manual
- ✓ Gearbox: 6-Speed Manual

● CONSIDERATIONS

- ✗ Exact equipment for Mustang can vary by derivative.
- ✗ Real fuel use for Mustang depends on route, load and weather.
- ✗ The written Mustang quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate Mustang budget.
- ✗ A short Mustang test drive cannot represent every ownership route.
- ✗ Mustang capability should not be inferred from body styling alone.

Hagalu Editorial Verdict

> *"Mustang deserves a closer look when its price, equipment and powertrain fit the owner's route."*

The Ford Mustang suits drivers who prefer a booted car with composed road manners and clear ownership costs. Published consumption references around 7.8 l/100km help frame running costs, while output references around 328 kW and 334 help explain overtaking confidence. A fair review of Mustang should end with the owner's route, not a universal verdict. The combination of a listed ground clearance of 134, warranty of 3 and engine of 5-litre Naturally Aspirated Petrol can be valuable for the right driver

City Driving	In South African use, the Mustang has to deal with short urban trips, hot-weather highway running, rougher suburban surfaces and the cost discipline that comes with finance, insurance and tyres. The urban test for Mustang should resemble the owner's route: a cold start, queues, kerbs, a narrow turn and a place where people or goods must be loaded. The vehicle's warranty of 3 is only useful if access and visibility work in practice
Highway	For highway buyers, the Mustang needs to make sense when passengers, luggage or work equipment are aboard. A power output of 338 kW @ 7300 rpm helps frame the vehicle's intended workload; a larger body does not by itself guarantee greater reserve or comfort. Long-distance comfort depends on details that disappear in a short test drive for Mustang. Run Mustang at legal cruising speed, include a hill and a safe overtake, and see whether the driver can remain relaxed after an hour. The interaction between a 6-Speed Manual transmission, a 6-Speed Manual transmission and a rear-wheel drive drivetrain is more informative than maximum speed for Mustang. Owners travelling between provinces should also price replacement tyres, roadside assistance and scheduled service for Mustang

© 2026 Hagalu Automotive Research

Off-Road	Engine of 5-litre Naturally Aspirated Petrol may help, but neither a tall bonnet nor petrol alone creates four-wheel drive, low range or a published wading ability. Ground clearance is only one part of the rough-road answer for Mustang. For Mustang, the sensible check is the exact rwd arrangement, tyre specification, load and protection underneath. Stay cautious where the local data does not state clearance or wading depth for Mustang. A buyer whose routine includes construction tracks or isolated farm roads should compare a vehicle with documented capability rather than infer it from styling for Mustang
Best For	The Ford Mustang is a current South African Sedan positioned for drivers who prefer a booted car with composed road manners and clear ownership costs. The best buyer for Mustang can describe a recurring reason for choosing its sedan layout. Then compare a 6-Speed Manual transmission and a rear-wheel drive drivetrain with insurance, tyres, maintenance and the monthly finance payment
