01 Overview & Quick Facts

The Geely E5 Electric is the larger, family-oriented battery model in the South African range. Geely quotes 461 litres of luggage space with the rear seats available and up to 1,877 litres when they are folded. Those figures place practicality at the centre of the car rather than treating the battery drivetrain as the only reason to buy it. The GEA architecture is designed around electrified vehicles, helping create a flat, open cabin with flexible seating and storage. Aspire and Apex use a 60.22 kWh battery but have different official range and acceleration claims. The grades have different official acceleration and range values: Aspire pairs 430 km with 6.9 seconds to 100 km/h; Apex pairs 410 km with 7.1 seconds. Apex Plus changes the battery as well, using a 68.39 kWh pack with a quoted 450 km range and a 7.6-second acceleration figure. Apex Plus retains a flagship equipment intent while pairing its larger battery with the longest published range in the local trio; buyers should compare its precise standard list rather than assume every Apex item carries over identically….

Body Style	5-door electric SUV
Launched	2025
Generation	First South African E5 Electric generation on Geely's GEA new-energy architecture.
Fuel Types	Electric
Colours	Snowy White, Turquoise Green, Carbon Black, Frost Grey, Moonlight Silver

02 Variant Pricing & On-Road Costs

Ex-Showroom Starting Price	ZAR 699,999 – 788,888	3 Listed Variants

Variant	Fuel	Transmission	Trim	Ex-Showroom
Aspire	Electric	Single-Speed Reduction Gear	Base	**ZAR 699,999**
Apex	Electric	Single-Speed Reduction Gear	Mid	**ZAR 759,999**
Apex Plus	Electric	Single-Speed Reduction Gear	Top	**ZAR 788,888**

Estimated On-Road Price — Aspire (Base Variant)

Johannesburg	**ZAR 719,398**
Cape Town	**ZAR 722,798**
Durban	**ZAR 716,898**
Pretoria	**ZAR 718,148**

* On-road prices are estimates including registration, road tax and insurance.

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: SUV
- ✓ Fuel type: Electric
- ✓ South African price: R699,999
- ✓ Engine: Electric motor
- ✓ Power output: 160 kW
- ✓ Transmission: Single-Speed Reduction Gear

● CONSIDERATIONS

- ✗ Exact equipment for E5 Electric can vary by derivative.
- ✗ Real fuel use for E5 Electric depends on route, load and weather.
- ✗ The written E5 Electric quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate E5 Electric budget.
- ✗ A short E5 Electric test drive cannot represent every ownership route.
- ✗ E5 Electric capability should not be inferred from body styling alone.

Buyer Summary

> *"E5 Electric deserves a closer look when its price, equipment and powertrain fit the owner's route."*

As a product, it is a spacious road-going family EV with clear grade differences, not a rugged off-roader. Aspire combines the smaller wheels with the strongest 60.22 kWh range claim; Apex adds extensive ADAS and comfort equipment; Apex Plus pairs flagship positioning with the larger battery and longest stated range. A fair review of E5 Electric should end with the owner's route, not a universal verdict. The combination of a Single-Speed Reduction Gear transmission, a Single-Speed Reduction Gear transmission and a front-wheel drive drivetrain can be valuable for the right driver

City Driving	The official protection list also combines tyre-pressure monitoring and parking sensors at both ends with ABS, brake assist, electronic force distribution, plus hill-start and hill-descent control. The urban test for E5 Electric should resemble the owner's route: a cold start, queues, kerbs, a narrow turn and a place where people or goods must be loaded
Highway	Apex adds multi-collision braking and a broad assistance package: AEB, adaptive and intelligent cruise, lane keeping, traffic-sign identification, blind-spot detection, rear cross-traffic alert and braking, door-open warning and collision-mitigation functions. For highway buyers, the E5 Electric needs to make sense when passengers, luggage or work equipment are aboard. Long-distance comfort depends on details that disappear in a short test drive for E5 Electric. Run E5 Electric at legal cruising speed, include a hill and a safe overtake, and see whether the driver can remain relaxed after an hour. The interaction between a South African price reference of R699,999, engine of Electric motor and a power output of 160 kW is more informative than maximum speed for E5 Electric. Owners travelling between provinces should also price replacement tyres, roadside assistance and scheduled service for E5 Electric

© 2026 Hagalu Automotive Research • https://www.hagalu.com/south-africa/geely/e5-electric/

Off-Road	E5 has SUV proportions, hill-control electronics and underbody battery engineering, but its South African derivatives are road-focused front-drive EVs. Ground clearance is only one part of the rough-road answer for E5 Electric. For E5 Electric, the sensible check is the exact fwd arrangement, tyre specification, load and protection underneath. Stay cautious where the local data does not state clearance or wading depth for E5 Electric. A buyer whose routine includes construction tracks or isolated farm roads should compare a vehicle with documented capability rather than infer it from styling for E5 Electric
Best For	The best buyer for E5 Electric can describe a recurring reason for choosing its suv layout. Then compare engine of Electric motor and a power output of 160 kW with insurance, tyres, maintenance and the monthly finance payment
