## 01 Overview & Quick Facts

The mid-size SUV segment is one of the most fiercely contested in South Africa. The Toyota RAV4 dominates by volume, the Honda CR-V plays the refinement card, the Hyundai Tucson and KIA Sportage trade on Korean equipment-richness, and a clutch of European alternatives — VW Tiguan, Peugeot 3008, Skoda Karoq — chase the buyers who want premium feel at family-SUV prices. Into this segment, GWM positioned the Haval H6 in 2022 — and three years later, it has become the best-selling Chinese SUV in South Africa. The H6 sold in South Africa is hybrid-only, which is a notable strategic decision. Where rival manufacturers offer petrol entry points and hybrid as a step-up, GWM committed to hybrid technology across the H6 range. The result is a powertrain story unique in its segment: every H6 sold in South Africa runs the 1.5-litre Atkinson-cycle petrol with integrated electric motor, combined output 180 kW and 530 Nm of torque, with real-world fuel consumption of 5.5–6.5 L/100 km in mixed driving. Three variants are offered locally — 1.5T Hybrid LS at R589,900, 1.5T Hybrid LT...

<b>Body Style</b>	5-door mid-size monocoque SUV with front-wheel drive. Dimensions: 4,653 mm length, 1,886 mm width, 1,730 mm height, 2,738 mm wheelbase. Boot capacity 530 litres seats-up.
<b>Launched</b>	2022
<b>Generation</b>	H6 sold in South Africa is the third generation H6 under the Haval brand, launched globally in 2021 and adapted for SA in 2022. Suspension and powertrain calibration is tuned for South African road conditions and fuel quality.
<b>Fuel Types</b>	Hybrid
<b>Colours</b>	Crystal White, Hamilton Black, Pittsburgh Silver, Mars Red, Atlantic Blue and Cosmos Grey. Two-tone roof options on LT and LX with selected base colours.
<b>OEM Website</b>	<a href="https://www.haval.co.za/h6/">https://www.haval.co.za/h6/</a>

## 02 Variant Pricing & On-Road Costs

## 03 Pros, Cons & Expert Verdict

● STRENGTHS	● CONSIDERATIONS
<ul style="list-style-type: none"> <li>✓ Hybrid-only powertrain delivers 5.5–6.5 L/100 km real-world fuel economy in SA conditions</li> <li>✓ 180 kW combined output makes H6 quicker than Toyota RAV4 Hybrid and Honda CR-V e:HEV</li> <li>✓ 14.6-inch infotainment on LT/LX with wireless CarPlay and Android Auto</li> <li>✓ Comprehensive standard safety kit including 6 airbags and full ADAS across all trims</li> <li>✓ 8-year/180,000 km battery warranty plus 5-year/100,000 km vehicle warranty</li> <li>✓ Generous 530-litre boot capacity and class-competitive rear legroom</li> </ul>	<ul style="list-style-type: none"> <li>✗ Front-wheel-drive only — no AWD option for buyers wanting all-weather capability</li> <li>✗ Residual values trail Toyota RAV4 by R40,000–R60,000 at 3-year horizon</li> <li>✗ Hybrid system can briefly feel intrusive during EV-to-petrol handover at urban junctions</li> <li>✗ Some controls are buried in touchscreen menus rather than physical buttons</li> <li>✗ Premium look of higher trims is partly contingent on optional two-tone roof which adds...</li> </ul>

## Expert Verdict

*"South Africa's best-selling Chinese SUV — the H6 delivers genuine hybrid technology, premium equipment levels and mid-size practicality at prices that undercut the Toyota RAV4 Hybrid."*

The Haval H6 has earned its place in South Africa's mid-size SUV segment through technical capability, equipment richness and clear pricing strategy. The hybrid-only powertrain story is unique in its segment, the cabin equipment levels at the LT and LX trims are genuinely competitive with European rivals, and the warranty package is industry-leading. For mid-size SUV buyers willing to consider Haval, the H6 deserves a serious test drive.

<b>City Driving</b>	Hybrid powertrain is in its element in city duty — the H6 will operate in EV mode at parking and crawl speeds, with the petrol engine intervening only above 30 km/h or when battery state-of-charge drops. Real-world city fuel consumption sits at 5.0–5.5 L/100 km. Smooth low-speed manners and good visibility make it easy to live with.
<b>Highway</b>	Quiet, comfortable highway cruising with strong overtaking performance from the hybrid system. Real-world fuel economy at 120 km/h sits at 6.0–6.5 L/100 km. Adaptive cruise with stop-go capability works well; the two-speed hybrid transmission delivers responsive acceleration when overtaking on N3 climbs.
<b>Off-Road</b>	Front-wheel-drive mid-size SUV with 198 mm ground clearance. Handles gravel roads, light tracks and uneven surfaces well within reasonable limits. Not designed for serious off-road work.
<b>Best For</b>	Mid-size SUV buyers in South Africa who want hybrid efficiency, comprehensive equipment and competitive pricing. Suits families with school-age children, professionals with regular long-distance driving, and buyers who want the latest in SUV technology without paying European-brand premiums.

## 04 Variant Comparison Matrix

All 3 variants of the Gwm H6 side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
