01 Overview & Quick Facts

GWM launched one body with three different powertrain strategies: a 1.5-litre turbo-petrol with a seven-speed dual-clutch transmission, a 1.5T hybrid with a dedicated hybrid transmission, and a battery-electric version. Each powertrain is offered in Super Luxury and Ultra Luxury trim, producing a six-derivative range from R364,900 to R599,900. It is the price-led route into the range at R364,900 for Super Luxury and R409,900 for Ultra Luxury. The hybrid raises the published system figures to 164 kW and 476 Nm, with prices of R424,900 and R474,900. The BEV uses a 150 kW, 260 Nm electric motor and a 58.33 kWh battery. GWM quotes a 520 km NEDC pure-electric range for both BEV grades and prices them at R549,900 and R599,900. NEDC is a laboratory cycle, not a promise of South African motorway range, so buyers should not use 520 km as a guaranteed Joburg-to-Durban planning figure. The July brochure does not publish an AC charge time, DC peak rate or a local real-world range. It includes LED headlamps and tail lamps, daytime running lamps, roof rails, automatic front wipers, a rear…

Body Style	Compact SUV
Launched	2026
Generation	First-generation GWM ORA 5 for South Africa, launched on 8 July 2026 with one compact-SUV body, three powertrain types and two equipment grades.
Fuel Types	Petrol, hybrid and battery electric
Colours	Emerald Green, Matte Grey, Ayers Grey, Hamilton White, Sterling Silver, Night Black, Brilliant Rose with a black roof, and Lake Blue with a black roof
OEM Website	https://www.gwm.co.za/models/ora-5

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: SUV
- ✓ Fuel type: Petrol / Hybrid / Electric
- ✓ South African price: R364,900
- ✓ Engine: 1.5-litre Turbocharged Petrol
- ✓ Power output: 105 kW
- ✓ Transmission: 7-Speed DCT

● CONSIDERATIONS

- ✗ Exact equipment for ORA 5 can vary by derivative.
- ✗ Real fuel use for ORA 5 depends on route, load and weather.
- ✗ The written ORA 5 quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate ORA 5 budget.
- ✗ A short ORA 5 test drive cannot represent every ownership route.
- ✗ ORA 5 capability should not be inferred from body styling alone.

Hagalu Editorial Verdict

> *"ORA 5 deserves a closer look when its price, equipment and powertrain fit the owner's route."*

That extra spend buys the same broad equipment package in each powertrain, so buyers can assess it independently of engine choice. A fair review of ORA 5 should end with the owner's route, not a universal verdict. The combination of a power output of 105 kW, a 7-Speed DCT transmission and a 7-speed dual-clutch automatic transmission can be valuable for the right driver. The buying case for ORA 5 is specific. A 7-speed dual-clutch automatic transmission gives it a reason to be considered, while Petrol power and a listed ground clearance of 175 set the boundaries for ORA 5. It deserves a shortlist when those details solve a repeated South African driving need for ORA 5. It is less persuasive when the buyer is paying for unused capacity or assuming that another derivative's equipment applies here for ORA 5. Compare the written price, the nearest grade and one genuine alternative before deciding for ORA 5

City Driving	The urban test for ORA 5 should resemble the owner's route: a cold start, queues, kerbs, a narrow turn and a place where people or goods must be loaded. City use is where the small decisions accumulate for ORA 5. Drive the ORA 5 through the tightest parking area, a steep ramp, a speed hump and stop-start traffic. Pay attention to the steering, sight lines, low-speed response, seat position and climate control rather than relying on a quiet dealership loop for ORA 5. Warranty of 7 years / 200,000 km matters when the cabin or load is full, and a South African price reference of R409,900 can change the cost of repeated short trips for ORA 5
Highway	The GWM ORA 5 arrived in South African showrooms in July 2026 as a much broader proposition than its pre-launch coverage suggested. For highway buyers, the ORA 5 needs to make sense when passengers, luggage or work equipment are aboard. Petrol power helps frame the vehicle's intended workload; do not assume that a larger body automatically brings more reserve or comfort
Off-Road	The 60-profile tyres offer more sidewall than the fashion- driven low-profile fitments on some compact SUVs, while the multi-link rear layout should help isolate broken suburban surfaces. A 7-speed dual-clutch automatic transmission may help, but neither a tall bonnet nor petrol / hybrid / electric alone creates four-wheel drive, low range or a published wading ability

© 2026 Hagalu Automotive Research

Best For	A buyer can choose the shape and cabin first, then decide whether conventional refuelling, hybrid assistance or fully electric driving fits the household. The best buyer for ORA 5 can describe a recurring reason for choosing its suv layout. Then compare a South African price reference of R364,900 and engine of 1.5-litre Turbocharged Petrol with insurance, tyres, maintenance and the monthly finance payment

04 Variant Comparison Matrix

All 8 variants of the GWM ORA 5 side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
