01 Overview & Quick Facts

First-generation Tank 300 launched in South Africa in 2024. No significant facelift to date; software updates have refined the differential locking activation logic and refined the hybrid system on the Hi4-T variant. The Tank 300 has a clearer South African buying case when its suv shape is connected to the work it must do. For a buyer searching the Tank 300 price and specifications in South Africa, the interesting part is the trade-off rather than the feature count. Engine of 2-litre Turbocharged Petrol describes the opportunity; a power output of 167 kW @ 5500 rpm and a 8-Speed Automatic transmission describe the conditions around it. For this South African suv, the owner should weigh a South African price reference of R699,900 against the route, load and cost of the vehicle. A proper look at the Tank 300 begins with the local specification, then moves to the owner's week. Here, an SUV body sits beside Petrol power, while a South African price reference of R699,900 sets a practical boundary. The Tank 300 is not best understood by one headline number. Its…

Body Style	SUV
Launched	2024
Generation	First generation, launched globally in 2021 and brought to South Africa in 2024. The Tank brand is positioned as GWM's premium off-road sub-brand alongside Haval (SUVs) and Ora (electric).
Fuel Types	Petrol and Hybrid
Colours	Crystal White, Hamilton Black, Mars Red, Atlantic Blue, Adventure Olive Green and Sand Dune Beige. The Adventure Olive Green is exclusive to Off-Road and Hi4-T Hybrid trims.

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: SUV
- ✓ Fuel type: Petrol
- ✓ South African price: R699,900
- ✓ Engine: 2-litre Turbocharged Petrol
- ✓ Power output: 167 kW @ 5500 rpm
- ✓ Transmission: 8-Speed Automatic

● CONSIDERATIONS

- ✗ Exact equipment for Tank 300 can vary by derivative.
- ✗ Real fuel use for Tank 300 depends on route, load and weather.
- ✗ The written Tank 300 quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate Tank 300 budget.
- ✗ A short Tank 300 test drive cannot represent every ownership route.
- ✗ Tank 300 capability should not be inferred from body styling alone.

Hagalu Editorial Verdict

> *"Tank 300 deserves a closer look when its price, equipment and powertrain fit the owner's route."*

Ownership and cabin detail is not just a brochure exercise: infotainment screen references around Yes; airbag coverage around 6 and 8; warranty cover listed as 5 Years / 100,000 km; service or maintenance cover listed as 5 Years / 75,000 km, and trim-by-trim equipment still matters when comparing monthly cost. The buying case for Tank 300 is specific. A 8-Speed Automatic transmission gives it a reason to be considered, while a 8-Speed Automatic transmission and a 4x4 AWD drivetrain set the boundaries

City Driving	In South African use, the Tank 300 has to deal with short urban trips, hot-weather highway running, rougher suburban surfaces and the cost discipline that comes with finance, insurance and tyres. Drive the Tank 300 through the tightest parking area, a steep ramp, a speed hump and stop-start traffic. A four-wheel drive drivetrain matters when the cabin or load is full, and a South African price reference of R769,900 can change the cost of repeated short trips
Highway	Run Tank 300 at legal cruising speed, include a hill and a safe overtake, and see whether the driver can remain relaxed after an hour. The interaction between a 4x4 AWD drivetrain, a four-wheel drive drivetrain and a South African price reference of R769,900 is more informative than maximum speed
Off-Road	For Tank 300, the sensible check is the exact 4x4 awd arrangement, tyre specification, load and protection underneath. If the Tank 300 will leave smooth tar, test the actual road rather than the image around it. A slow run over corrugations, a sharp entrance and a loaded crest will show whether the suspension, tyres and underside suit the duty for Tank 300. Check a 4x4 AWD drivetrain against the stated drivetrain for Tank 300. Maintained gravel can be a reasonable use case for many road vehicles; deep sand, mud and water demand confirmed equipment and a recovery plan for Tank 300
Best For	The GWM Tank 300 is a current South African SUV positioned for buyers who want lower-consumption technology without leaving the SUV format. Tank 300 makes the most sense for an owner whose route and budget agree with a 8-Speed Automatic transmission
