01 Overview & Quick Facts

Into this competitive field, the KIA Seltos deploys a weapon its rivals consistently lack: genuine powertrain diversity that makes it relevant to a significantly broader buyer spectrum than any single-engine competitor. It is the volume engine of the South African range, paired to either a six-speed manual or a CVT, and it serves the mainstream compact SUV buyer who primarily wants comfortable, efficient transport between Johannesburg's northern suburbs and the CBD, or between Cape Town's southern suburbs and the Waterfront, or between Durban's Berea and the beachfront offices. More significant in real South African driving is the 265Nm torque available from 1,500rpm — which means the Seltos GT-Line pulls cleanly out of the Van Reenen's Pass hairpins without down-shifting drama, dispatches slower traffic on the N3 between Johannesburg and Durban without the extended committed overtake that 85kW demands, and in general creates the impression of a vehicle with genuine performance reserves rather than an engine pressed to its limits. The seven-speed dual-clutch transmission maximises this powertrain's effectiveness, delivering rapid, seamless upshifts under acceleration and responsive kickdown when overtaking is needed.…

Body Style	5-door compact SUV
Launched	2020
Generation	First generation (SP2); SA launch 2020; 2023 facelift model current
Fuel Types	Petrol (95 Octane), Diesel (50ppm)
Colours	Clear White, Aurora Black Pearl, Steel Grey, Gravity Blue, Intense Red, Pewter Olive, Glacier White Pearl (dual-tone on GT-Line)
OEM Website	https://www.kia.com/za/vehicles/seltos/

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: SUV
- ✓ Fuel type: Petrol
- ✓ South African price: R389,995
- ✓ Engine: 1.5-litre Naturally Aspirated Petrol
- ✓ Power output: 85 kW @ 6300 rpm
- ✓ Transmission: 6-Speed Manual

● CONSIDERATIONS

- ✗ Exact equipment for Seltos can vary by derivative.
- ✗ Real fuel use for Seltos depends on route, load and weather.
- ✗ The written Seltos quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate Seltos budget.
- ✗ A short Seltos test drive cannot represent every ownership route.
- ✗ Seltos capability should not be inferred from body styling alone.

Buyer Summary

> *"Seltos deserves a closer look when its price, equipment and powertrain fit the owner's route."*

The 1.5-litre naturally aspirated G4LC four-cylinder (85kW/143Nm) anchors the LS and LX grades. Highveld buyers who tow ski boats to Hartbeespoort Dam on Saturday mornings. The buying case for Seltos is specific. A power output of 85 kW @ 6300 rpm gives it a reason to be considered, while a 6-Speed Manual transmission and a 6-Speed Manual transmission set the boundaries. Seltos is easiest to recommend when the buyer can point to a concrete benefit in Petrol power and accept the limitation represented by a power output of 85 kW @ 6300 rpm. The local price should be judged against the equipment that is actually included, not an adjacent trim for Seltos. That is the difference between a sound purchase and an expensive specification mismatch for Seltos

City Driving	Drive the Seltos through the tightest parking area, a steep ramp, a speed hump and stop-start traffic. A front-wheel drive drivetrain matters when the cabin or load is full, and a front-wheel drive drivetrain can change the cost of repeated short trips. Around town, Seltos should be judged by repetition rather than a single burst of acceleration. Try the exact derivative with its normal occupants or equipment for Seltos. Look for easy entry, usable storage, predictable braking and a calm response at walking pace for Seltos. The relevance of a 6-Speed Manual transmission becomes obvious on a busy weekday, while a 6-Speed Manual transmission is worth checking before a purchase built around tight parking or frequent loading for Seltos
Highway	Run Seltos at legal cruising speed, include a hill and a safe overtake, and see whether the driver can remain relaxed after an hour. The interaction between a 6-Speed Manual transmission, a front-wheel drive drivetrain and a front-wheel drive drivetrain is more informative than maximum speed. On a South African freeway or inter-city road, take the Seltos out with the load it normally carries. Observe the joining response, overtaking reserve, braking, crosswind behaviour, seat support and cabin noise for Seltos. A South African price reference of R389,995 gives context, but a number cannot show how engine of 1.5-litre Naturally Aspirated Petrol feels on a gradient for Seltos. Plan fuel or charging stops around actual use; the stated consumption reference is a comparison reference, not a promise for every trip for Seltos

© 2026 Hagalu Automotive Research

Off-Road	For Seltos, the sensible check is the exact fwd arrangement, tyre specification, load and protection underneath. If the Seltos will leave smooth tar, test the actual road rather than the image around it. A slow run over corrugations, a sharp entrance and a loaded crest will show whether the suspension, tyres and underside suit the duty for Seltos. Check a 6-Speed Manual transmission against the stated drivetrain for Seltos. Maintained gravel can be a reasonable use case for many road vehicles; deep sand, mud and water demand confirmed equipment and a recovery plan for Seltos
Best For	Every manufacturer with serious ambitions has a product here — Toyota RAV4 at the category's prestige ceiling, Hyundai Tucson and Mazda CX-5 in the performance-and-refinement tier, and a cluster of value alternatives including the MG ZS, Haval Jolion and Chery Tiggo 4 Pro fighting for the budget-conscious buyer who wants an SUV without the financial commitment of a European product. Seltos makes the most sense for an owner whose route and budget agree with a 6-Speed Manual transmission
