01 Overview & Quick Facts

The KIA Sportage has maintained a consistent presence in South Africa since the early 2000s, but the fifth-generation NQ5 model represents a step-change so significant that it effectively resets the competitive reference points for every compact SUV priced above R650,000. Where previous Sportage generations were competent but conservative — the considered purchase when you needed a reliable family SUV without the Toyota RAV4's premium pricing — the NQ5 demands evaluation on its own terms and frequently comes out ahead. The exterior is the entry point of any Sportage conversation. KIA's design team has produced something genuinely striking rather than merely attractive. The Sportage's front fascia features a three-dimensional parametric grille that flows into the daytime running lights in a way that creates a face with no analogue in the segment. The sharp crease running along the vehicle's flank, the full-width LED rear light cluster and the clean, athletic roof profile create a vehicle that generates attention in showrooms and on roads. Park an NQ5 GT-Line next to a Toyota RAV4 GX on Cape Town's bougainvillea-draped Somerset Road or Johannesburg's Rivonia...

Body Style	5-door compact SUV
Launched	2022
Generation	Fifth generation (NQ5); global launch 2021, SA 2022
Fuel Types	Petrol (95 Octane), Diesel (50ppm)
Colours	Clear White, Aurora Black Pearl, Gravity Blue, Steel Grey, Intense Red, Glacial White Pearl, Interstellar Grey
OEM Website	https://www.kia.com/za/vehicles/sportage/

03 Pros, Cons & Expert Verdict

<p>● STRENGTHS</p> <ul style="list-style-type: none"> ✓ Panoramic curved 12.3+12.3-inch display is the most impressive dashboard in its price... ✓ Meridian audio on GT-Line delivers premium sound quality at a non-premium price ✓ 64-colour ambient lighting creates a genuinely premium cabin atmosphere ✓ Striking fifth-gen design commands attention without costing R1m+ like European rivals ✓ Comprehensive ADAS suite including safe exit warning addresses real SA traffic risk... ✓ 1.6D diesel returns ~6.0L/100km — best efficiency in class at comparable performance 	<p>● CONSIDERATIONS</p> <ul style="list-style-type: none"> ✗ 1.6T petrol consumption of 8.0-8.5L/100km is expensive at sustained SA fuel prices ✗ Toyota RAV4 still commands superior residual values in South African used market ✗ Curved display can show reflections in direct South African summer sunlight ✗ Body roll on demanding mountain passes is more pronounced than Mazda CX-5 ✗ Not suited for regular serious off-road use despite SUV proportions ✗ GT-Line S at R823,995 approaches Toyota RAV4 GX-R territory where badge matters
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Expert Verdict

"The fifth-generation Sportage resets the compact SUV technology benchmark in South Africa — its panoramic curved display, Meridian audio and design language are class-defining, not just class-competitive."

The Sportage GT-Line is the most technologically accomplished compact SUV under R830k in South Africa. The curved display, Meridian audio, comprehensive ADAS and striking design justify the price premium over less generously equipped rivals. Diesel variant is the efficiency pick; petrol turbo the performance choice. Toyota's residual value advantage remains the Sportage's most persistent competitive disadvantage, but for buyers keeping their vehicle on a service plan through the warranty period, that consideration is secondary.

City Driving	Excellent — compact SUV dimensions, strong ADAS and impressive interior make it a daily-driver standout
Highway	Excellent — diesel variant particularly relaxed at highway cruise; petrol smooth at 120km/h
Off-Road	Light gravel and game park access roads — not a serious off-roader; focus is urban and highway
Best For	Aspirational professional family; design-conscious SUV buyer; buyer stepping up from Seltos or Sonet; technology-priority compact SUV buyer with R650k-R830k budget

04 Variant Comparison Matrix

All 6 variants of the KIA Sportage side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
