01 Overview & Quick Facts

LDV's current South African D90 is a single finalized Flagship derivative rather than earlier provisional two-grade information. It arrived among the brand's newest local additions in 2025 and uses a body-on-frame, seven-seat format aimed at buyers who need passenger space, towing-oriented diesel torque and genuine four-wheel-drive hardware. With no lower local grade in the current official range, every buyer receives the same powertrain and equipment package. The 2.0-litre twin-turbo diesel is rated at 160 kW and 500 Nm. An eight-speed automatic is controlled from the steering column and drives all four wheels. LDV confirms centre, rear and front differential locks, plus Sport, Normal and Eco road modes. The official sheet lists a 175 km/h maximum speed and 9.1 litres per 100 km combined consumption under Euro 5 emissions. Double-wishbone front suspension and a five-link coil-spring rear arrangement distinguish its passenger and rough-road brief from a leaf-sprung commercial van or pickup. D90 measures 5,046 mm long, 2,016 mm wide and 1,876 mm high on a 2,950 mm wheelbase. Seating is arranged 2+3+2. The official sheet lists a 2,370 kg certified vehicle...

Body Style	Seven-seat five-door body-on-frame SUV
Launched	2025
Generation	Current new-generation seven-seat D90 Flagship with three-lock four-wheel drive and twin-screen luxury cabin.
Fuel Types	Diesel
Colours	Natural White, Metal Ash, Metal Black and Spruce Green.

03 Pros, Cons & Buyer Summary

● STRENGTHS ✓ Seven-seat 2+3+2 layout ✓ 160 kW and 500 Nm diesel ✓ Eight-speed automatic ✓ Centre, front and rear locks ✓ Twin 12.3-inch screens ✓ Twelve-speaker JBL audio	● CONSIDERATIONS ✗ One large Flagship grade only ✗ Over two metres wide ✗ Official clearance figures conflict ✗ Official towing figures conflict ✗ Twenty-inch tyre cost ✗ No petrol option
--	--

Buyer Summary

"A lavish seven-seat 4x4 with one unresolved capability paperwork check."

D90 Flagship offers a rare combination: seven real seating positions, 500 Nm diesel torque, three locks and a cabin rich in comfort and assistance technology. The single-grade structure removes trim confusion. Its case weakens for buyers who rarely use the third row or have tight parking, and official disagreement over clearance and towing must be resolved on the order rather than smoothed over. With that documentation secured, it is a serious family-tourer proposition. The contract must settle those figures before the vehicle is assigned to heavy towing or remote routes.

City Driving	The cameras, rear radar, column shifter and automatic gearbox reduce some daily effort, but a 5.046-metre SUV that is over two metres wide still needs deliberate parking. Test every regular driver in the home garage and school drop-off. Third-row access, child-seat placement and luggage remaining with seven occupants deserve a physical trial. The 360-degree view assists placement; it cannot reveal every low object or protect large 20-inch wheels from kerbs.
Highway	Five hundred newton metres, an eight-speed automatic, adaptive cruise and multi-zone ventilation support long family journeys. Load all seven seats before judging overtaking response, ride and cabin storage. Because the public towing figures conflict, obtain the exact approved braked capacity and gross combination mass before selecting a caravan. The official 9.1 l/100 km combined number is a planning reference; roof loads, speed, gradients and full occupancy will alter consumption.
Off-Road	Three differential locks give the D90 a strong mechanical basis for low-grip travel, while the coil-sprung rear layout supports its passenger role. Official local material does not provide one conflict-free ground-clearance figure, so obstacle planning must use the homologated number supplied for the delivered vehicle. Twenty-inch road tyres, long bodywork and passenger side steps influence practical access. Learn the lock sequence on safe ground and carry recovery equipment suited to the vehicle's rated points.
Best For	D90 Flagship suits larger families, touring owners and users who need three-row seating with low-speed traction hardware. It is less suitable for compact urban households or buyers who require a verified public towing figure before ordering, because the current official sources conflict on that point.

04 Variant Comparison Matrix

All 1 variants of the Ldv D90 side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.

SPEC	D90 Flagship
Price (ex-showroom)	ZAR 899,900
