01 Overview & Quick Facts

The Terron 9 became one of LDV South Africa's newest additions in 2025 and sits above the T60 as a larger premium double cab. Two finalized grades are published: Premium and Flagship. Both carry the same 2.5-litre turbo-diesel, eight-speed automatic, four-wheel-drive system, dimensions, rated masses and extensive safety package. Flagship changes selected comfort and cargo-access details rather than creating a second powertrain. The diesel produces 163 kW at 4,000 rpm and 520 Nm from 1,500 to 2,400 rpm. LDV lists a 180 km/h maximum speed and 11.5-second referenced 0-100 km/h time. Its automatic has eight forward ratios, manual control and a 2.640 low-range ratio. Normal, Eco and Sport cover ordinary driving; Mud, Snow, Sand and Tow address changing surfaces and loads; the deeper terrain set includes Rock, Deep Snow, Deep Mud, Wade and Rock Crawl. Intelligent real-time torque-on-demand works with front and rear on-demand differential locks. Those systems expand the operating envelope, but the driver must still understand the selector sequence and surface limits. At 5,500 mm long and 1,997 mm wide before mirrors, the Terron 9 is a substantial...

Body Style	Five-seat double-cab pickup with manufacturer-supplied load box
Launched	2025
Generation	Current large double-cab Terron 9 with independent rear suspension, torque-on-demand 4x4 and Premium or Flagship equipment.
Fuel Types	Diesel
Colours	Blanc White, Jewel Blue, Metal Black, Concrete Grey, Desert Yellow and Spruce Green.

02 Variant Pricing & On-Road Costs

Ex-Showroom Starting Price	ZAR 779,900 – 849,900			2 Listed Variants
Variant	Fuel	Transmission	Trim	Ex-Showroom
Terron 9 Premium	Diesel	8-Speed ZF Automatic	Base	ZAR 779,900
Terron 9 Flagship	Diesel	8-Speed ZF Automatic	Top	ZAR 849,900

Estimated On-Road Price — Terron 9 Premium (Base Variant)

Johannesburg	ZAR 800,258
Cape Town	ZAR 803,898
Durban	ZAR 797,599
Pretoria	ZAR 798,928

* On-road prices are estimates including registration, road tax and insurance.

03 Pros, Cons & Buyer Summary

● STRENGTHS ✓ 163 kW and 520 Nm ✓ Eight-speed automatic ✓ Front and rear differential locks ✓ Low-range transfer gearing ✓ 3,500 kg braked towing ✓ Seven airbags	● CONSIDERATIONS ✗ Very large urban footprint ✗ 850 kg payload ceiling ✗ Clearance reduces at maximum load ✗ Twenty-inch tyre cost ✗ Diesel only ✗ Automatic only
---	---

Buyer Summary

"Premium is comprehensive; Flagship is a targeted luxury upgrade."

Terron 9 combines serious four-wheel-drive hardware with a cabin that needs few excuses. Premium already carries the safety, displays, comfort seats, JBL audio, cameras and mechanical capability that define the model. Flagship makes sense for buyers who will use its panoramic roof and unusual rear access, not for anyone expecting extra engine output or payload. The decisive cautions are physical size, an 850 kg load ceiling and ground clearance that reduces under maximum load. Both grades also require the same loaded-clearance and tyre-cost discipline.

City Driving	Urban use exposes the Terron 9's scale. Its 5.5-metre length, 1.997-metre body width and 13.3-metre kerb-to-kerb turning circle require large parking spaces. Front and rear sensors, the 360-degree camera and electric tailgate help, but they cannot create clearance. The automatic, adaptive cruise and massaging driver's seat make congestion less tiring. Buyers should measure garage width and height with mirrors, roof equipment and the chosen tailgate open.
Highway	The 520 Nm torque band, eight-speed automatic, 80-litre tank and independent rear suspension suit long-distance travel. A 3,500 kg braked trailer is allowed, but the 850 kg payload must absorb people, luggage, accessories and towball mass. Tow mode is available, yet a legal combination still depends on actual weights and correct trailer braking. The published 7.9 l/100 km combined figure should be stress-tested against wind, speed, load and the large frontal area.
Off-Road	Low range, front and rear locks, torque-on-demand and the detailed terrain modes give Terron 9 unusually broad factory hardware. Published 220 mm unladen clearance falls to 180 mm at maximum load, an important distinction when touring equipment is added. Its long wheelbase and 20-inch wheel package demand deliberate line choice. Treat the 500 mm wading figure as a maximum operating reference and check water flow, bottom condition, recovery access and the owner's manual before entry.
Best For	Terron 9 targets a buyer who wants a full-size bakkie for towing, remote travel and family use without accepting a basic commercial cabin. Premium is already highly equipped. Flagship suits those who specifically value the panoramic roof, ambient lighting and flexible tailgate arrangement.

04 Variant Comparison Matrix

All 2 variants of the Ldv Terron 9 side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
