01 Overview & Quick Facts

The Lexus LX occupies a specific place in the South African range: it is designed for a flagship-SUV buyer who needs full-size passenger comfort, serious towing and remote-road capability in one vehicle. The current range contains 5 confirmed derivatives, priced from R2 687 500 to R2 841 000. Fourth-generation Lexus LX flagship body-on-frame SUV. Recommended price range checked 2026-07-17: R2 687 500 to R2 841 000. On South African highways, Few vehicles combine long-range comfort, heavy towing and passing power as convincingly. The price range of R2 687 500 to R2 841 000 is broad enough that a disciplined trim decision matters. The LX deserves recommendation for a flagship-SUV buyer who needs full-size passenger comfort, serious towing and remote-road capability in one vehicle when its packaging and engineering fit the normal week. The LX has a clearer South African buying case when its suv shape is connected to the work it must do. The useful starting points are Diesel and Hybrid power and a South African price reference of R2,829,200; together they explain more than a badge or a screen…

Body Style	SUV
Launched	2022
Generation	Fourth-generation Lexus LX flagship body-on-frame SUV
Fuel Types	Diesel and Hybrid
Colours	White Nova, White Quartz, Sonic Titanium, Graphite Black, Manganese Luster, Terrane Khaki and Overtrail-specific finishes

* On-road prices are estimates including registration, road tax and insurance.

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: SUV
- ✓ Fuel type: Diesel and Hybrid
- ✓ South African price: R2,829,200
- ✓ Engine: 3.5-litre Turbocharged Petrol Hybrid
- ✓ Power output: 341 kW @ 5200 rpm
- ✓ Transmission: 10-Speed Automatic

● CONSIDERATIONS

- ✗ Exact equipment for LX can vary by derivative.
- ✗ Real fuel use for LX depends on route, load and weather.
- ✗ The written LX quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate LX budget.
- ✗ A short LX test drive cannot represent every ownership route.
- ✗ LX capability should not be inferred from body styling alone.

Buyer Summary

> *"LX deserves a closer look when its price, equipment and powertrain fit the owner's route."*

LX 700h grades use a 3.5-litre twin-turbo hybrid system with 341 kW total output, full-time four-wheel drive and the hardware needed to retain low-speed off-road control. The buying case for LX is specific. Diesel and Hybrid power gives it a reason to be considered, while a South African price reference of R2,829,200 and engine of 3.5-litre Turbocharged Petrol Hybrid set the boundaries. LX is easiest to recommend when the buyer can point to a concrete benefit in a 10-Speed Automatic transmission and accept the limitation represented by a AWD drivetrain. The local price should be judged against the equipment that is actually included, not an adjacent trim for LX. That is the difference between a sound purchase and an expensive specification mismatch for LX

City Driving	The derivative list is LX 700h Urban, LX 700h OVERTRAIL, LX 700h F SPORT, LX 500d F SPORT, LX 500d OVERTRAIL. Drive the LX through the tightest parking area, a steep ramp, a speed hump and stop-start traffic. A power output of 341 kW @ 5200 rpm matters when the cabin or load is full, and a 10-Speed Automatic transmission can change the cost of repeated short trips
Highway	Run LX at legal cruising speed, include a hill and a safe overtake, and see whether the driver can remain relaxed after an hour. The interaction between engine of 3.5-litre Turbocharged Petrol Hybrid, a power output of 341 kW @ 5200 rpm and a 10-Speed Automatic transmission is more informative than maximum speed
Off-Road	For LX, the sensible check is the exact awd arrangement, tyre specification, load and protection underneath. If the LX will leave smooth tar, test the actual road rather than the image around it. A slow run over corrugations, a sharp entrance and a loaded crest will show whether the suspension, tyres and underside suit the duty for LX. Check a South African price reference of R2,841,000 against the stated drivetrain for LX. Maintained gravel can be a reasonable use case for many road vehicles; deep sand, mud and water demand confirmed equipment and a recovery plan for LX

© 2026 Hagalu Automotive Research

Best For	LX makes the most sense for an owner whose route and budget agree with a South African price reference of R2,829,200. A shopper researching LX should separate need from showroom appeal. If a 10-Speed Automatic transmission solves a problem every week, it deserves real consideration for LX. If it appears only on an occasional trip, a less expensive derivative may leave more room for running costs for LX. Test the space with the actual child seats, bags, tools or stock, and confirm the equipment that belongs to the exact South African version for LX
