01 Overview & Quick Facts

The Lexus RZ occupies a specific place in the South African range: it is designed for a premium-EV buyer with dependable home or workplace charging who wants Lexus refinement and DIRECT4 all-wheel drive. The current range contains four confirmed derivatives, priced from R1 682 600 to R2 628 500. Lexus South Africa's live vehicle API lists the RZ 600e F SPORT under derivative code 60Z with a R2 628 500 price, a monthly-from calculation and Standard customer-order type; the exact locally announced full name is RZ 600e F SPORT Performance. Those figures are recommended vehicle prices checked on 2026-08-12; finance interest, registration, insurance, paint, dealer accessories and optional plans can change the amount a buyer ultimately pays. Every current RZ derivative uses battery-electric drive and DIRECT4 all-wheel drive. The 500e grades produce 280 kW, the 550e F SPORT produces 300 kW, and Lexus now lists the 600e F SPORT at the top of the local range. The updated battery-electric RZ range launched locally in 2026, and the live South African vehicle catalogue now lists flagship derivative code 60Z with its…

Body Style	SUV
Launched	2026
Generation	Updated dedicated battery-electric Lexus RZ range launched locally in 2026; all four locally listed derivatives are current.
Fuel Types	Electric
Colours	Aether Metallic bi-tone, Atomic Blue, Classic White, Graphite Black, Sonic Chrome and Sonic Iridium

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: SUV
- ✓ Fuel type: Electric
- ✓ South African price: R2,628,500
- ✓ Engine: Battery-electric powertrain
- ✓ Power output: 313 kW
- ✓ Transmission: Single-Speed Reduction Gear

● CONSIDERATIONS

- ✗ Exact equipment for RZ can vary by derivative.
- ✗ Real fuel use for RZ depends on route, load and weather.
- ✗ The written RZ quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate RZ budget.
- ✗ A short RZ test drive cannot represent every ownership route.
- ✗ RZ capability should not be inferred from body styling alone.

Buyer Summary

> *"RZ deserves a closer look when its price, equipment and powertrain fit the owner's route."*

The Lexus RZ best suits a premium-EV buyer with dependable home or workplace charging who wants Lexus refinement and DIRECT4 all-wheel drive. RZ is easiest to recommend when the buyer can point to a concrete benefit in a Single-speed electric drive transmission and accept the limitation represented by a South African price reference of R1,977,600. A fair review of RZ should end with the owner's route, not a universal verdict. The combination of a Single-Speed Reduction Gear transmission, a Single-speed electric drive transmission and a AWD DIRECT4 drivetrain can be valuable for the right driver for RZ. The same package may feel expensive or inconvenient if the vehicle spends its life in a different role for RZ. Drive the exact version loaded as it will be used, then read the service, warranty, tyre and insurance costs beside the purchase price for RZ

City Driving	In city use, Silent low-speed travel, strong regenerative response and zero tailpipe emissions suit urban driving, but the RZ is still a wide premium SUV. Around town, RZ should be judged by repetition rather than a single burst of acceleration. The relevance of a power output of 300 kW becomes obvious on a busy weekday, while a South African price reference of R1,682,600 is worth checking before a purchase built around tight parking or frequent loading
Highway	On a South African freeway or inter-city road, take the RZ out with the load it normally carries. A AWD DIRECT4 drivetrain gives context, but a number cannot show how a AWD drivetrain feels on a gradient. For highway buyers, the RZ needs to make sense when passengers, luggage or work equipment are aboard. Check how it tracks on uneven tar, how the transmission responds after a downshift and whether the boot or load area remains usable for RZ. A AWD drivetrain helps frame the vehicle's intended workload; do not assume that a larger body automatically brings more reserve or comfort for RZ

© 2026 Hagalu Automotive Research • https://www.hagalu.com/south-africa/lexus/rz/

Off-Road	If the RZ will leave smooth tar, test the actual road rather than the image around it. Check a South African price reference of R1,682,600 against the stated drivetrain. The rough-road question has to be answered by hardware for RZ. On a known gravel or farm access section, inspect clearance, tyre sidewalls, underbody exposure, approach angles and recovery access for RZ. A AWD DIRECT4 drivetrain may help, but neither a tall bonnet nor electric alone creates four-wheel drive, low range or a published wading ability for RZ. Keep the speed and route within what the exact local derivative can support for RZ
Best For	A shopper researching RZ should separate need from showroom appeal. If a Single-speed electric drive transmission solves a problem every week, it deserves real consideration

04 Variant Comparison Matrix

All 5 variants of the Lexus RZ side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
