01 Overview & Quick Facts

The MG Cyberster has a completely different role from the brand's hatchbacks and SUVs. It is a two-seat electric roadster, the most expensive current MG and the product intended to reconnect the badge with open-top sports cars through battery-electric propulsion. One derivative is sold locally: Dual Motor 4WD Roadster. Its front synchronous motor produces 150 kW and 250 Nm, the rear 250 kW and 475 Nm, and MG publishes combined totals of 375 kW and 725 Nm. The dual motors drive all four wheels. Official 0–100 km/h is 3.2 seconds, 80–120 km/h takes 2.1 seconds and top speed is 208 km/h. Launch control is included. These figures establish a performance car first; electric propulsion does not make it an economy commuter. The nominal 77 kWh battery uses ternary-lithium chemistry. MG lists 443 km WLTP combined and 500 km NEDC, with official efficiency of 191 Wh/km. Charging includes an 11 kW onboard AC unit, CCS Type 2 and a 144 kW DC maximum. MG estimates nine hours for a full 11 kW AC charge, 61 minutes from 10–80% on 50 kW...

Body Style	Two-door, two-seat soft-top roadster
Launched	2025
Generation	First-generation battery-electric Cyberster roadster in local dual-motor all-wheel-drive form.
Fuel Types	Electric
Colours	Modern Beige, Andes Grey, Light Speed Silver, Flare Red and Nuclear Yellow; red-and-black interior is paired with red exterior, with grey-and-black also listed.
OEM Website	https://www.mgmotor.co.za/cyberster.html

03 Pros, Cons & Buyer Summary

● STRENGTHS ✓ 375 kW and 725 Nm ✓ 3.2-second 0–100 km/h ✓ 443 km WLTP range ✓ 11 kW AC charging ✓ 144 kW DC maximum ✓ Scissor doors and soft top	● CONSIDERATIONS ✗ Only two seats ✗ 249-litre boot ✗ 116 mm clearance ✗ 1,985 kg mass ✗ 20-inch tyre cost ✗ Needs reliable charging
---	--

Buyer Summary

"A genuinely fast and theatrical EV roadster whose appeal depends on accepting two-seat practicality."

Cyberster succeeds as a halo because it is not a family EV with a styling kit. Roadster proportions, soft top, scissor doors, dual motors, 375 kW, 725 Nm and a 3.2-second sprint give it a specific identity. A 77 kWh battery, 443 km WLTP range, 11 kW AC and up to 144 kW DC charging provide usable scope. The trade-offs—1,985 kg mass, 249-litre boot, two seats and low clearance—are substantial but transparent. Buyers wanting drama and able to support charging will understand it.

City Driving	In town, immediate response and a single-speed drive remove gear changes, while cameras and sensors help manage the 1,913 mm width. The low seating, 116 mm clearance and wide performance tyres demand care on ramps and speed humps. Scissor doors reduce lateral swing but garage height and obstacles still matter. Regular urban users gain most convenience from overnight AC charging. The car's output requires restraint in congestion; a fast accelerator response is not a substitute for smooth low-speed control.
Highway	The 443 km WLTP figure is the official planning reference, not a guaranteed motorway distance. Sustained speed, weather, climate use and hard acceleration reduce range, so longer trips need real charger locations and backups. Performance reserve is exceptional, with 375 kW, 725 Nm and a 2.1-second 80–120 km/h claim, but public-road use still depends on judgement. The soft top and compact boot make luggage and noise expectations different from a closed grand tourer.
Off-Road	Cyberster belongs on suitable paved roads. Its 116 mm clearance, sports tyres, low body and road suspension leave no margin for ruts or rocky approaches. Even maintained gravel requires care because stones can damage the body and tyres. There is no low range or protection package; 4WD describes dual-motor traction, not trail certification. Owners planning rural destinations should check the access road and charging before leaving.
Best For	Cyberster is for an enthusiast or collector wanting a rapid open-top EV and accepting the compromises of a two-seat roadster. It suits a couple's weekend driving or a halo car alongside a practical household vehicle. It is less suitable as the only car for families, bulky airport luggage, poor-road travel or users without dependable charging. The purchase budget should include insurance, 20-inch tyres and charger installation, rather than stopping at list price.

04 Variant Comparison Matrix

All 1 variants of the Mg Cyberster side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
