01 Overview & Quick Facts

The MG3 is the smallest current MG sold in South Africa and the range's direct answer to buyers who still value a conventional hatchback. Five local derivatives give it a wider spread than its compact dimensions suggest: 1.5L MT Comfort, 1.5L CVT Comfort, 1.5L CVT Luxury, 1.5L CVT Luxury+ and 1.5L Hybrid+. The first four use petrol power, with the manual at the entry point, Comfort and Luxury CVT steps, and Luxury+ as the highest petrol derivative. Hybrid+ changes the powertrain as well as the positioning. That distinction prevents the common mistake of treating every MG3 as the same car with different badges. The petrol derivatives use a 1,495 cc naturally aspirated four-cylinder engine producing 81 kW at 6,000 rpm and 142 Nm at 4,500 rpm. Hybrid+ uses a 1,498 cc petrol engine rated at 75 kW at 6,000 rpm and 128 Nm at 4,500 rpm, while MG publishes 155 kW and 425 Nm as the complete hybrid-system totals. All versions drive the front wheels. Entry Comfort has a manual gearbox, the petrol automatics use a CVT, and Hybrid+ uses...

Body Style	Five-door hatchback
Launched	2025
Generation	Current-generation five-door MG3 offered locally with naturally aspirated petrol and self-charging hybrid powertrains.
Fuel Types	Petrol; Hybrid
Colours	Flare Red, Morning Yellow, Pearl Black, York White, Hampstead Grey, St. Moritz Blue and Blade Silver; grade and stock availability can vary.
OEM Website	https://www.mgmotor.co.za/mg3.html

02 Variant Pricing & On-Road Costs

Ex-Showroom Starting Price	ZAR 269,900 – 469,900	5 Listed Variants
----------------------------	------------------------------	-------------------

Variant	Fuel	Transmission	Trim	Ex-Showroom
1.5L MT Comfort	Petrol	Manual	Base	ZAR 269,900
1.5L CVT Comfort	Petrol	CVT	Mid	ZAR 309,900
1.5L CVT Luxury+	Petrol	CVT	Premium	ZAR 359,900
1.5L Hybrid+	Hybrid	Hybrid Transmission	Flagship	ZAR 469,900
1.5L CVT Luxury	Petrol	CVT	Top	ZAR 344,900 (last listed)

Estimated On-Road Price — 1.5L MT Comfort (Base Variant)

Johannesburg	ZAR 284,138
Cape Town	ZAR 286,248
Durban	ZAR 282,499
Pretoria	ZAR 283,318

* On-road prices are estimates including registration, road tax and insurance.

03 Pros, Cons & Buyer Summary

● STRENGTHS ✓ Five distinct local derivatives ✓ Manual and CVT petrol choice ✓ Separate Hybrid+ flagship ✓ Compact five-door body ✓ 293-litre seats-up boot ✓ Seven-year/200,000 km warranty	● CONSIDERATIONS ✗ Hybrid+ costs substantially more ✗ Petrol grades have four airbags ✗ Cabin measurements remain incomplete ✗ Real-world economy varies by route ✗ Boot is not SUV-sized ✗ Hybrid+ cannot be externally charged
---	---

Buyer Summary

"A clear compact-car ladder, from an honest manual through three petrol CVTs to a genuinely different Hybrid+."

The MG3 deserves attention because its choices are understandable. Comfort buyers choose manual or CVT, Luxury and Luxury+ progressively raise petrol specification, and Hybrid+ introduces a separate powertrain with much higher system totals. The shared 4,113 mm body remains usefully compact and 293 litres of luggage room covers ordinary duties. The trade-off is transparent: upper grades approach larger-car money and Hybrid+ costs materially more. The correct derivative is chosen by transmission, exact equipment and annual driving pattern rather than the highest badge.

City Driving	Urban driving is the MG3's natural brief. Its compact body reduces the effort of narrow parking and crowded centres, while the hatchback tailgate keeps routine loading simple. The manual offers the lowest transmission complexity, but frequent stop-start users may prefer a CVT. Hybrid+ makes its strongest case in repeated slowing and acceleration, where electrification can contribute without a charging cable. Buyers should compare Luxury, Luxury+ and Hybrid+ with equipment they will use every day and with their own annual kilometres.
Highway	For motorway use, the 81 kW petrol engine provides the conventional route and the CVT removes manual changes in interchanges or congestion. Hybrid+ has the highest published system output and is the performance-led choice with passengers. The MG3 remains a small hatchback, so drivers carrying bulky luggage should test the 293-litre boot with real bags. Highway fuel claims and real-world use must be assessed separately because speed, gradient and load can change the value case between petrol and hybrid derivatives.
Off-Road	The MG3 is not an off-road car. Its front-wheel-drive layout and road-focused hatchback construction suit paved commuting, suburban streets and ordinary maintained access roads. It can traverse imperfect surfaces in normal use when driven carefully, but that is different from trail capability. Buyers who need low-range gearing, recovery points, underbody protection or published wading ability should select another category. On occasional graded gravel, conservative speed and tyre care matter more than sporty styling or Hybrid+ output.

Best For

The MG3 suits first-time new-car buyers, households replacing an older compact car and commuters who value a hatchback footprint. Manual Comfort is for buyers protecting acquisition cost and happy to shift for themselves. CVT Comfort serves traffic-heavy routes. Luxury and Luxury+ are for shoppers willing to pay for progressively richer petrol specification without hybrid hardware. Hybrid+ is for motorists who want the strongest published system output and self-charging operation but cannot or do not want to depend on an external plug.

04 Variant Comparison Matrix

All 5 variants of the Mg MG3 side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
