01 Overview & Quick Facts

Its official material positions it around 1.5 TGDI self-charging hybrid with 1.83 kWh battery, 165 kW/295 Nm combined output and 4.9 L/100 km claimed consumption. The range structure includes C5 SHS, so the purchase decision is not only whether the model is attractive, but which derivative carries the correct balance of equipment, mechanical layout and running-cost exposure. The published figures for Omoda C5 SHS are most useful when they are read beside the trim list: seating, cargo space, consumption, safety kit, service cover and warranty terms all shape the real deal. The C5 SHS is therefore best read through the exact derivative chosen rather than a single headline price. The 1.5 TGDI self-charging hybrid with 1.83 kWh battery, 165 kW/295 Nm combined output and 4.9 L/100 km claimed consumption setup in Omoda C5 SHS changes the ownership rhythm, from refill frequency and traffic efficiency to motorway reserve, regenerative-energy use and long-distance planning. The official source for C5 SHS lists 1.5 TGDI self-charging hybrid with 1.83 kWh battery, 165 kW/295 Nm combined output and 4.9 L/100 km claimed consumption., and that…

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: SUV
- ✓ Fuel type: Hybrid
- ✓ South African price: R469,900
- ✓ Engine: 1.5-litre Turbocharged Petrol Self-Charging Hybrid
- ✓ Power output: 105 kW @ 5200 rpm
- ✓ Transmission: 1-Speed Automatic

● CONSIDERATIONS

- ✗ Exact equipment for C5 SHS can vary by derivative.
- ✗ Real fuel use for C5 SHS depends on route, load and weather.
- ✗ The written C5 SHS quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate C5 SHS budget.
- ✗ A short C5 SHS test drive cannot represent every ownership route.
- ✗ C5 SHS capability should not be inferred from body styling alone.

Buyer Summary

> *"C5 SHS deserves a closer look when its price, equipment and powertrain fit the owner's route."*

With Omoda C5 SHS, a strong showroom impression only becomes a strong purchase when the selected trim avoids equipment gaps, excessive insurance value and ownership costs the buyer did not plan for. The buying case for C5 SHS is specific. An SUV body gives it a reason to be considered, while Hybrid power and a South African price reference of R469,900 set the boundaries. C5 SHS is easiest to recommend when the buyer can point to a concrete benefit in a power output of 105 kW @ 5200 rpm and accept the limitation represented by a front-wheel drive drivetrain. The local price should be judged against the equipment that is actually included, not an adjacent trim for C5 SHS. That is the difference between a sound purchase and an expensive specification mismatch for C5 SHS

City Driving	The cabin of Omoda C5 SHS has to work for weekday traffic, shopping stops, school bags, navigation, family gear and the broken tar that often separates a good test drive from a good ownership choice. Drive the C5 SHS through the tightest parking area, a steep ramp, a speed hump and stop-start traffic. Engine of 1.5-litre Turbocharged Petrol Self-Charging Hybrid matters when the cabin or load is full, and a power output of 105 kW @ 5200 rpm can change the cost of repeated short trips
Highway	For Omoda C5 SHS, the local buying decision starts with instalment pressure, fuel cost, warranty depth, rough-road comfort and the dealer support available near the owner's normal route. Run C5 SHS at legal cruising speed, include a hill and a safe overtake, and see whether the driver can remain relaxed after an hour. The interaction between a South African price reference of R469,900, engine of 1.5-litre Turbocharged Petrol Self-Charging Hybrid and a power output of 105 kW @ 5200 rpm is more informative than maximum speed

© 2026 Hagalu Automotive Research

Off-Road	For C5 SHS, the sensible check is the exact fwd arrangement, tyre specification, load and protection underneath. If the C5 SHS will leave smooth tar, test the actual road rather than the image around it. A slow run over corrugations, a sharp entrance and a loaded crest will show whether the suspension, tyres and underside suit the duty for C5 SHS. Check the 2026 model year against the stated drivetrain for C5 SHS. Maintained gravel can be a reasonable use case for many road vehicles; deep sand, mud and water demand confirmed equipment and a recovery plan for C5 SHS
Best For	The Omoda C5 SHS is listed for South Africa as a suv with a clear buyer role rather than a decorative catalogue entry. C5 SHS makes the most sense for an owner whose route and budget agree with Hybrid power
