## 01 Overview & Quick Facts

The Suzuki Baleno is Suzuki's mainstream sedan, positioned above Celerio but below vehicles like Toyota Corolla or Hyundai Elantra. At R329,900 for the GL MT base variant, it targets buyers wanting sedan practicality without premium pricing or premium complexity. After five years in the market, it's proven to be exactly what Suzuki intended: a solid, dependable sedan that works without drama. The 1.5-litre four-cylinder produces 77 kilowatts and 138 Newton-metres — modest figures that nonetheless feel adequate in a 980-kilogram vehicle. The engine is naturally aspirated, meaning no turbo lag, no turbo maintenance, just straightforward combustion. Real-world fuel consumption ranges from 4.9 to 5.5 litres per 100 kilometre depending on driving patterns. Highway at steady speeds achieves best economy; city stop-start pushes toward 5.8–6.2 L/100km. The five-speed manual on base and GL is straightforward; drivers select gears manually, which some find engaging, others tedious. Automatic variants (AT) use traditional planetary automatic for smooth gear changes without driver input. Fuel economy on automatics is marginally higher — 5.0 to 5.6 L/100km versus manual's 4.9 to 5.5. The Baleno's practical advantage over...

## 03 Pros, Cons & Expert Verdict

### ● STRENGTHS

- ✓ Reliability is demonstrated through proven engineering and market operation.
- ✓ Service costs remain reasonable through dealer and independent networks.
- ✓ Fuel economy sits within realistic ranges for segment class.
- ✓ Interior space accommodates family use across most configurations.
- ✓ Resale values develop as market recognizes vehicle positioning.
- ✓ Safety features include modern systems addressing real-world hazard scenarios.

### ● CONSIDERATIONS

- ✗ Depreciation follows segment patterns, with steeper loss during initial ownership years.
- ✗ Interior materials prioritize function over premium perception.
- ✗ Styling appears understated compared to visually aggressive competitors.
- ✗ Technology features may lag premium competitors in sophistication.
- ✗ Off-road capability remains basic for adventure-focused buyers.

## Expert Verdict

*"Best-equipped hatchback under R330,000 in SA — the GL+ panoramic roof and HUD alone justify the price over the GL"*

The Baleno GL+ at R329,900 offers a specification that is genuinely difficult to match at the price. Panoramic sunroof, heads-up display, dual-zone climate control, 9-inch touchscreen with Android Auto, and 318L of boot space — itemise that specification list against rival offerings in SA and you reach R380,000 to R420,000 before finding comparable standard equipment. The 4-speed automatic is the car's genuine weakness: it is functional but not sophisticated, and a 6-speed CVT would transform the fuel economy and refinement. Buyers who can tolerate the 4-speed — and most city buyers can, because the car never feels urgently in need of a lower gear in urban conditions — get exceptional equipment return on their R329,900.

### City Driving

The Baleno GL+ AT is an excellent city car for South African urban use. The 4-speed automatic keeps revs low and fuel consumption manageable in stop-start traffic; real-world city consumption runs around 7 to 8 litres per 100km — higher than the Swift's DualJet but appropriate for a larger automatic. The panoramic roof makes city driving noticeably more pleasant on clear Highveld and Western Cape days. Parking is straightforward — the car is compact despite the larger boot, and the rear sensors make parallel parking in tight Cape Town street bays manageable.

### Highway

Comfortable highway cruiser at normal SA national road speeds. The K15B at 120km/h in the 4-speed automatic's top ratio runs at approximately 3,100rpm — audible but not strained, and refined enough for two-hour highway stints. The cabin is quieter than the Swift at speed; the longer wheelbase absorbs road surface variations more smoothly. The Baleno is not a performance car but it is a relaxed and agreeable highway companion. Fuel economy improves noticeably at constant highway speeds — expect around 6 to 7 litres per 100km at consistent 110km/h.

<b>Off-Road</b>	Off-road access ranges from basic to moderate depending on configuration. Ground clearance handles typical farm gates and low obstacles. Gravel roads present no challenge for standard variants. Basic farm tracks are traversable for most configurations. Rough terrain requires appropriate driving technique rather than extreme capability. The vehicle functions adequately for recreational off-road scenarios without specialization for rock crawling.
<b>Best For</b>	Buyers who want a practical spacious hatchback with premium features at a realistic price, couples needing a comfortable daily driver with genuine boot space, buyers who compare the Baleno against the VW Polo Life and Toyota Starlet Glide at similar prices
