01 Overview & Quick Facts

That weight advantage gives the engine enough mechanical advantage to feel adequately responsive in city traffic without the strained feeling heavier rivals suffer. GLX CVT and GL+ CVT variants offer continuously variable transmission — no fixed gears, just smooth infinite ratio adjustment. The CVT holds optimal engine RPM for efficiency and power, which is why CVT Swifts achieve slightly better fuel economy (4.8–5.6 L/100km) than manual variants. Hatchback format means rear seats fold flat for cargo, creating surprisingly usable load area. Back seats have decent leg room for adults on short trips, genuine comfort for children. Four-year-old examples with 80,000 km typically retain 65–70% of original price, competitive in the segment and reflecting buyer confidence. That intangible feeling — that engineers cared about how the car drives, not just cost — is why drivers keep buying Swifts. Third-generation Swift launched in SA in 2017 with K12B engine; engine updated to Z12E DualJet in 2021 bringing improved fuel economy and refined low-rpm performance; GLX trim added to the SA range in 2022 with heads-up display and dual-zone climate control; ongoing specification…

Body Style	5-door hatchback
Launched	2017
Generation	Third generation (AZ/NZ series) on HEARTECT platform; Z12E DualJet engine generation introduced globally 2020-2021; current SA specification reflects 2022 range update with GLX tier added
Fuel Types	Petrol
Colours	Solid White, Pearl Snow White, Metallic Blue, Metallic Red, Metallic Granite Grey, Metallic Silky Silver, Pearl Midnight Black, Burning Red Pearl

Variant	Fuel	Transmission	Trim	Ex-Showroom
1.2 GL MT	Petrol	Manual	Base	**ZAR 228,900**
1.2 GL+ MT	Petrol	Manual	Mid	**ZAR 250,900**
1.2 GL+ CVT	Petrol	CVT	Mid	**ZAR 270,900**
1.2 GLX MT	Petrol	Manual	Top	**ZAR 276,900**
1.2 GLX CVT	Petrol	CVT	Flagship	**ZAR 296,900**

Estimated On-Road Price — 1.2 GL MT (Base Variant)

Johannesburg	**ZAR 242,646**
Cape Town	**ZAR 244,633**
Durban	**ZAR 241,089**
Pretoria	**ZAR 241,867**

* On-road prices are estimates including registration, road tax and insurance.

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: Hatchback
- ✓ Fuel type: Petrol
- ✓ South African price: R228,900
- ✓ Engine: 1.2-litre Naturally Aspirated Petrol
- ✓ Power output: 60 kW @ 5700 rpm
- ✓ Transmission: 5-Speed Manual

● CONSIDERATIONS

- ✗ Exact equipment for Swift can vary by derivative.
- ✗ Real fuel use for Swift depends on route, load and weather.
- ✗ The written Swift quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate Swift budget.
- ✗ A short Swift test drive cannot represent every ownership route.
- ✗ Swift capability should not be inferred from body styling alone.

Hagalu Editorial Verdict

> *"Swift deserves a closer look when its price, equipment and powertrain fit the owner's route."*

No soft-touch materials on base, which some perceive as cost-cutting; others appreciate durability and cleanability. Service costs at independent shops run R900–R1,400 including parts; authorized dealers charge more. Swift is easiest to recommend when the buyer can point to a concrete benefit in a power output of 60 kW @ 5700 rpm and accept the limitation represented by a front-wheel drive drivetrain. A fair review of Swift should end with the owner's route, not a universal verdict. The combination of engine of 1.2-litre Naturally Aspirated Petrol, a power output of 60 kW @ 5700 rpm and a 5-Speed Manual transmission can be valuable for the right driver for Swift. The same package may feel expensive or inconvenient if the vehicle spends its life in a different role for Swift. Drive the exact version loaded as it will be used, then read the service, warranty, tyre and insurance costs beside the purchase price for Swift

City Driving	City stop-start pushes toward 5.8–6.2 L/100km. Around town, Swift should be judged by repetition rather than a single burst of acceleration. The relevance of a front-wheel drive drivetrain becomes obvious on a busy weekday, while a South African price reference of R250,900 is worth checking before a purchase built around tight parking or frequent loading
Highway	Highway steady-speed cruise pulls consumption toward 4.9 L/100km. On a South African freeway or inter-city road, take the Swift out with the load it normally carries. A 5-Speed Manual transmission gives context, but a number cannot show how a 5-Speed Manual transmission feels on a gradient. For highway buyers, the Swift needs to make sense when passengers, luggage or work equipment are aboard. Check how it tracks on uneven tar, how the transmission responds after a downshift and whether the boot or load area remains usable for Swift. A 5-Speed Manual transmission helps frame the vehicle's intended workload; do not assume that a larger body automatically brings more reserve or comfort for Swift

© 2026 Hagalu Automotive Research • https://www.hagalu.com/south-africa/suzuki/swift/

Off-Road	Fuel tank is 42 litres, giving roughly 240–250 kilometres per tank in realistic mixed driving. If the Swift will leave smooth tar, test the actual road rather than the image around it. Check a South African price reference of R250,900 against the stated drivetrain. The rough-road question has to be answered by hardware for Swift. On a known gravel or farm access section, inspect clearance, tyre sidewalls, underbody exposure, approach angles and recovery access for Swift. A 5-Speed Manual transmission may help, but neither a tall bonnet nor petrol alone creates four-wheel drive, low range or a published wading ability for Swift. Keep the speed and route within what the exact local derivative can support for Swift
Best For	Commuters refuel once weekly; high-mileage drivers every 450–500 km. A shopper researching Swift should separate need from showroom appeal. If a power output of 60 kW @ 5700 rpm solves a problem every week, it deserves real consideration
