## 01 Overview & Quick Facts

The Suzuki Swift is South Africa's best-selling new car, a position it's held for several years. That stat reflects something beyond marketing — it means more SA drivers trust and buy this car than any other vehicle. The reasons are straightforward: the Swift balances genuine practicality, real efficiency, enjoyable driving, and accessible pricing in ways that compete effectively against everything. The 1.2-litre Z12E DualJet engine is the core technical achievement. Suzuki replaced the older K12B in 2021 with this newer design. The change was immediately noticeable. DualJet uses dual fuel injectors per cylinder — they fire at different combustion stages, optimizing the burn, reducing emissions, improving efficiency. Real-world driving shows 5.1–5.8 litres per 100 kilometre depending on patterns. Highway steady-speed cruise pulls consumption toward 4.9 L/100km. City stop-start pushes toward 5.8–6.2 L/100km. The 66-kilowatt output with 112 Newton-metres is modest, but the Swift weighs just 890 kilograms — lighter than you'd expect for a modern five-door hatchback. That weight advantage gives the engine enough mechanical advantage to feel adequately responsive in city traffic without the strained feeling heavier rivals suffer....

## 03 Pros, Cons & Expert Verdict

### ● STRENGTHS

- ✓ Z12E DualJet engine delivers 5.0 to 5.8L/100km real-world fuel economy — genuinely...
- ✓ GLX variant includes heads-up display as standard — a feature that in European-branded...
- ✓ 890kg kerb weight gives the 66kW engine a power-to-weight ratio that feels genuinely...
- ✓ Five-variant range covers manual and CVT across two equipment tiers — buyers can spec...
- ✓ Dual-zone climate control standard on GLX — two occupants can set different temperatures,...
- ✓ Build quality noticeably better than smaller Suzukis — tighter panel gaps, more solid...

### ● CONSIDERATIONS

- ✗ Rear legroom at 880mm is tight for adults taller than 180cm — the Swift functions as a...
- ✗ CVT gearbox delivers smooth city performance but is not engaging for drivers who enjoy...
- ✗ 66kW naturally aspirated engine feels limited when overtaking on steep highway gradients...
- ✗ GL base variant specification is thin at R299,900 — no rear camera, no Android Auto,...
- ✗ No AWD option anywhere in the Swift range — buyers in the Eastern Cape or KZN Midlands...

## Expert Verdict

*"The best overall hatchback value under R380,000 in South Africa — the GLX CVT is the pick if you can stretch the budget"*

The Swift GLX CVT at R379,900 competes directly with the entry-level Volkswagen Polo Life and undercuts it by a meaningful margin while matching it on connectivity and beating it on fuel economy. The heads-up display, dual-zone climate control, and 9-inch touchscreen at R379,900 represent a level of standard equipment that requires a R50,000 to R70,000 price increase in European alternatives. The Z12E DualJet engine's real-world fuel economy advantage over a 1.0L turbopetrol in the same conditions is consistently 1 to 1.5 litres per 100km in favour of the Swift — at 25,000km per year that saves approximately R5,000 to R7,500 annually in fuel alone. The Swift's main limitation is rear passenger space: adults taller than 180cm will find the rear footwell tight on trips longer than 45 minutes. For buyers who primarily carry two adults rather than four, this is not a meaningful concern in daily use.

### City Driving

The Swift is extremely well suited to South African urban driving. The Z12E DualJet's immediate low-rpm torque makes pulling away from traffic lights crisp and confident in a way the S-Presso's 989cc engine cannot match. The CVT variants are particularly effective in Joburg's stop-start peak hour — the transmission's smooth power delivery removes the jerkiness of conventional automatics in crawling traffic. At 890kg the car feels alert rather than sluggish in city conditions. Parking is manageable given the compact 3.84m body length, and the GLX's reversing camera makes tight parallel parking practical even for less experienced drivers. Fuel costs in city driving average around 5.5 to 6.2L/100km.

### Highway

The Swift is genuinely comfortable on South African national roads in a way that smaller Suzukis are not. At 120km/h on the N3, the Z12E engine sits at around 2,800rpm in the CVT's highest ratio — audible but not strained, producing a cabin noise level that allows normal conversation without raising voices. The car tracks straight without driver correction, the suspension absorbs expansion joints and painted road markings without transmitting sharp impacts to occupants, and the seats give adequate support for two-hour highway stints. The GLX's heads-up display is particularly useful on the highway for monitoring speed without looking away from the road.

<b>Off-Road</b>	Standard hatchback ground clearance and suspension setup — not for off-road use. The Swift handles suburban gravel driveways and light corrugated access roads without issue. Speed humps are absorbed comfortably. Beyond smooth or lightly compacted gravel, the Swift is not appropriate and the low-profile 185/65R15 tyres on base variants and 185/55R16 on GLX are not rated for rough terrain.
<b>Best For</b>	Young professionals and daily commuters comparing the Swift directly against the VW Polo Vivo and Toyota Starlet, buyers upgrading from a S-Presso or Celerio and wanting noticeably better highway manners, small-family buyers wanting a five-door hatchback with better fuel economy than the segment average
