01 Overview & Quick Facts

The Tata Curvv is the design-led middle SUV in Tata Passenger Vehicles' current South African range. Its sloping rear profile and flush door handles give it a coupe-inspired identity, while the underlying proposition remains practical: five seats, a published 500-litre boot and a body large enough for family use without reaching Harrier dimensions. All three confirmed local derivatives use a 1,199 cc three-cylinder Revotron turbo-petrol engine producing 88 kW at 5,500 rpm and 170 Nm between 1,750 and 4,000 rpm. Pure+ pairs it with a six-speed manual; Creative and Accomplished S use a seven-speed dual-clutch automatic. Every derivative is front-wheel drive. The torque band should support flexible routine performance, but buyers still need to test low-speed turbo response, loaded overtaking and the dual-clutch gearbox in traffic. The Curvv measures 4,308 mm long, 1,810 mm wide and 1,635 mm high on a 2,560 mm wheelbase. Tata lists 208 mm of unladen ground clearance, useful for uneven road approaches and maintained gravel. It does not convert the model into a 4x4, and drive modes are not substitutes for a rear driven axle,...

Body Style	Five-door coupe-inspired SUV
Launched	2025
Generation	First-generation South African-market Tata Curvv five-door coupe-inspired SUV, introduced in the brand's 2025 passenger range
Fuel Types	Petrol
Colours	Tata South Africa presents several Curvv colours and roof treatments; availability, colour pairing and surcharges must be confirmed for the selected derivative.

03 Pros, Cons & Buyer Summary

● STRENGTHS ✓ Six airbags across all local derivatives ✓ Turbo engine with 170 Nm torque band ✓ Published 500-litre boot ✓ 208 mm unladen ground clearance ✓ Manual and seven-speed DCA choices ✓ Distinctive flush door handles	● CONSIDERATIONS ✗ Front-wheel drive only ✗ No low-range gearing ✗ Coupe roof may limit tall cargo ✗ Rearward visibility needs an in-person check ✗ Dual-clutch low-speed response requires testing ✗ No higher-output flagship engine
--	--

Hagalu Editorial Verdict

"A distinctive but substantive SUV whose Creative DCA middle grade offers the broadest balance of convenience and cost discipline."

Curvv combines a clear visual identity with family-relevant facts: a 500-litre boot, useful clearance, a flexible turbo torque band and six airbags across three derivatives. Pure+ protects the essentials, Creative adds the automatic and connected features most buyers will use, and Accomplished S brings genuinely advanced comfort and camera equipment. The common constraints are front-wheel drive, unchanged performance across trims and a roof shape that must be checked with tall cargo and rear passengers. Its styling is therefore a reason to begin the test, not enough evidence to end the buying decision. Creative is the reference point against which the manual's simplicity and flagship's technology should be valued.

City Driving	The Curvv's automatic derivatives, camera equipment and keyless functions suit commuting, although its 1,810 mm width and 4,308 mm length need more parking care than Tata's smaller models. Pure+ manual gives direct control; Creative DCA removes clutch effort; Accomplished S expands camera coverage. The flush handles, rearward visibility and dual-clutch response should be tried repeatedly. Automatic climate, ventilated seats and phone integration on upper grades can improve hot, congested journeys when their operation matches the user's devices and preferences.
Highway	The broad 170 Nm torque band, six or seven ratios and 500-litre boot support intercity family travel. Creative and Accomplished S add cruise and richer cabin technology, while six airbags and stability control apply across the range. The driver still needs safe overtaking margins, particularly with passengers and luggage. A highway test should evaluate seat support, road noise, wind around the coupe body, rear visibility and the difference in ride between 16-, 17- and 18-inch wheel packages.
Off-Road	The Curvv's 208 mm unladen clearance is useful on maintained gravel, steep entrances and ordinary destination roads. All local versions remain front-wheel drive, with no low-range transfer case. Accomplished S adds hill-descent control and extensive cameras, but these cannot supply missing traction or guarantee underbody clearance. Use conservative speeds on corrugations, avoid deep mud, sand, ruts and water, and account for the long body plus expensive alloy wheels before choosing a rough route.
Best For	The Curvv suits style-conscious families and professionals who need five seats and substantial luggage room, value six-airbag safety and can accept a coupe-shaped rear body and front-wheel-drive-only architecture.

04 Variant Comparison Matrix

All 3 variants of the Tata Curvv side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.
