Air conditioning operates properly in South African summer heat. The driving position commands authority without excessive height. Interior layout remains intuitive through extended city driving. Audio systems integrate smartphone connectivity. Climate control maintains comfort in traffic-heavy commutes. Steering is responsive enough for urban maneuvers. Fuel consumption in city traffic remains predictable and manageable. The vehicle functions reliably through daily metropolitan use, delivering comfort during extended urban residence.
Highway	Highway driving confirms engineering integrity. At 120 km/h cruising, engine operation is relaxed and refined. Road noise remains controlled through wind and tire sound management. Fuel economy stabilizes within predictable consumption ranges. The transmission settles into efficient cruising operation. Comfort extends across multi-hour driving periods. Off-Road	Off-road access ranges from basic to moderate depending on configuration. Ground clearance handles typical farm gates and low obstacles. Gravel roads present no challenge for standard variants. Basic farm tracks are traversable for most configurations. Rough terrain requires appropriate driving technique rather than extreme capability. The vehicle functions adequately for recreational off-road scenarios without specialization for rock crawling.
