01 Overview & Quick Facts

Second generation GR86 with improved 2.4L engine. A proper look at the GR86 begins with the local specification, then moves to the owner's week. Here, a sedan body sits beside Petrol power, while a South African price reference of R749,900 sets a practical boundary. The GR86 has a clearer South African buying case when its sedan shape is connected to the work it must do. For this South African sedan, the owner should weigh colour availability of White,Red,Black,Grey,Blue against the route, load and cost of the vehicle. The GR86 is not best understood by one headline number. Its appeal comes from the interaction between a South African price reference of R749,900, engine of 2.4-litre Naturally Aspirated Petrol and a power output of 173 kW @ 7000 rpm. For a buyer searching the GR86 price and specifications in South Africa, the interesting part is the trade-off rather than the feature count. A power output of 173 kW @ 7000 rpm describes the opportunity; a 6-Speed Manual transmission and a 6-Speed Manual transmission describe the conditions around it. The useful starting points…

Body Style	Sedan
Launched	2022
Generation	Second generation GR86 with improved 2.4L engine
Fuel Types	Petrol
Colours	White,Red,Black,Grey,Blue

2.4 Manual	Petrol	Manual	Top	**ZAR 749,900**
2.4 Automatic	Petrol	6-Speed Automatic	Top	**ZAR 799,900**

Estimated On-Road Price — 2.4 Manual (Base Variant)

Johannesburg	**ZAR 769,898**
Cape Town	**ZAR 773,448**
Durban	**ZAR 767,299**
Pretoria	**ZAR 768,598**

* On-road prices are estimates including registration, road tax and insurance.

03 Pros, Cons & Buyer Summary

● STRENGTHS

- ✓ Body style: Sedan
- ✓ Fuel type: Petrol
- ✓ South African price: R749,900
- ✓ Engine: 2.4-litre Naturally Aspirated Petrol
- ✓ Power output: 173 kW @ 7000 rpm
- ✓ Transmission: 6-Speed Manual

● CONSIDERATIONS

- ✗ Exact equipment for GR86 can vary by derivative.
- ✗ Real fuel use for GR86 depends on route, load and weather.
- ✗ The written GR86 quotation should be checked before purchase.
- ✗ Tyre, insurance and service costs need a separate GR86 budget.
- ✗ A short GR86 test drive cannot represent every ownership route.
- ✗ GR86 capability should not be inferred from body styling alone.

Buyer Summary

> *"GR86 deserves a closer look when its price, equipment and powertrain fit the owner's route."*

Ownership and cabin detail is not just a brochure exercise: infotainment screen references around 8-inch Touchscreen; airbag coverage around 7; warranty cover listed as 3 years / 100 000 km; service or maintenance cover listed as Optional, and trim-by-trim equipment still matters when comparing monthly cost. The buying case for GR86 is specific. A sedan body gives it a reason to be considered, while Petrol power and a South African price reference of R749,900 set the boundaries. GR86 is easiest to recommend when the buyer can point to a concrete benefit in a power output of 173 kW @ 7000 rpm and accept the limitation represented by a rear-wheel drive drivetrain. The local price should be judged against the equipment that is actually included, not an adjacent trim for GR86. That is the difference between a sound purchase and an expensive specification mismatch for GR86

City Driving	In South African use, the GR86 has to deal with short urban trips, hot-weather highway running, rougher suburban surfaces and the cost discipline that comes with finance, insurance and tyres. Drive the GR86 through the tightest parking area, a steep ramp, a speed hump and stop-start traffic. Engine of 2.4-litre Naturally Aspirated Petrol matters when the cabin or load is full, and a power output of 173 kW @ 7000 rpm can change the cost of repeated short trips
Highway	Run GR86 at legal cruising speed, include a hill and a safe overtake, and see whether the driver can remain relaxed after an hour. The interaction between a South African price reference of R749,900, engine of 2.4-litre Naturally Aspirated Petrol and a power output of 173 kW @ 7000 rpm is more informative than maximum speed
Off-Road	For GR86, the sensible check is the exact rwd arrangement, tyre specification, load and protection underneath. If the GR86 will leave smooth tar, test the actual road rather than the image around it. A slow run over corrugations, a sharp entrance and a loaded crest will show whether the suspension, tyres and underside suit the duty for GR86. Check a South African price reference of R799,900 against the stated drivetrain for GR86. Maintained gravel can be a reasonable use case for many road vehicles; deep sand, mud and water demand confirmed equipment and a recovery plan for GR86
