01 Overview & Quick Facts

Dzire offers a different kind of practicality from a hatchback: a separate luggage compartment rather than one shared with the passenger space. Test its opening with bulky items as well as checking the capacity on paper. For regular passenger trips, rear-seat comfort and access deserve attention too. The New Dzire name appears in Suzuki Tanzania's range, but its local gearbox and equipment should be confirmed on the quoted grade. Compare it with Swift around your actual mix of passengers and luggage, not simply by which body looks larger. The Tanzania catalogue identifies Dzire as a sedan with petrol power. The generation record is Fourth-generation Dzire, and the lifecycle note is Current fourth-generation version. Those labels are useful only when they stay attached to the local vehicle record. The named local derivative reference is Dzire GLX 1.2 CVT. Other listed derivative names include the local grade shown on the model record. Ask the distributor to place the exact grade, engine or motor, transmission, driven wheels, body and model year on the written quotation before comparing amounts or equipment. In city use,...

Body Style	Sedan
Launched	2024
Generation	Fourth-generation Dzire
Fuel Types	Petrol
Colours	Confirm current Tanzania colour availability with the local distributor for the exact derivative.

03 Pros, Cons & Buyer Summary

● STRENGTHS ✓ Exact Tanzania model identity is recorded. ✓ The sedan role is clear. ✓ A dated TZS price reference is useful for comparison, but confirm the current cash...	● CONSIDERATIONS ✗ Final stock and dealer terms require confirmation. ✗ Some country-specific precision fields remain undisclosed. ✗ Ownership cost depends on the exact route and support plan.
---	--

Buyer Summary

"A country-specific sedan choice"

Dzire deserves a place on a Tanzania shortlist when its sedan role matches the owner's real route and the supplied derivative is identified clearly. The strongest buying case is built around Dzire GLX 1.2 CVT, a dated local quotation, confirmed equipment and a service plan that the owner can actually use. The weakest case is a purchase based on a foreign grade, a guessed price, an assumed warranty or a body style that does not fit the regular load. Compare the complete delivered cost and the practical compromises with at least one credible alternative before deciding.

City Driving	In city use, the Dzire should be judged as a real sedan, not as a badge alone. Drive the route that defines ordinary ownership, including a tight gate, traffic queue, speed hump, parking space and the road surface outside the showroom. Test visibility, low-speed control, seat comfort and storage with the people and bags that normally travel. The Dzire GLX 1.2 CVT identity must stay on the quotation so an overseas grade or a different gearbox is not mistaken for the Tanzania vehicle. This sedan is most useful when its body, passenger space and petrol running suited to the owner's normal routes and service plan match the job.
Highway	For longer Tanzania journeys, the Dzire needs a route-led assessment. Test the car with the usual people and luggage, not only on an empty launch loop. Notice acceleration, braking, tyre noise, seat support, visibility and the effect of the gearbox or motor when climbing and overtaking. Fuel or energy planning must belong to this exact local configuration. The Dzire GLX 1.2 CVT description identifies the vehicle to compare, but it does not establish a universal consumption, range, payload or towing result. Obtain the local service schedule, warranty conditions and emergency-support route before a regular intercity trip. This sedan is most useful when its body, passenger space and petrol running suited to the owner's normal routes and service plan match the job.
Off-Road	Off-pavement suitability for the Dzire is a practical boundary, not a marketing label. Treat gravel, mud, standing water and rutted tracks as separate demands. Protect the wheels and underside, reduce speed and confirm the road suitability of the exact tyres and driven wheels before planning a route away from paved support. Use the exact Dzire GLX 1.2 CVT identity when asking the distributor about the equipment and warranty. If the route is regularly remote, budget for recovery, tyre damage and delayed service rather than relying on a model-family reputation. This sedan is most useful when its body, passenger space and petrol running suited to the owner's normal routes and service plan match the job.

Best For

The likely buyer for the Tanzania Dzire is someone who has a defined need for a sedan and is willing to match the local derivative to that need. The buyer should be able to explain the normal passengers, luggage or working load, daily route, longer-trip pattern, parking situation and service location. If the petrol configuration is chosen, the owner should also understand its refuelling or charging routine, warranty and running-cost assumptions. Buyers should prefer a written local specification and a complete TZS quotation over a familiar badge or an overseas equipment list.

04 Variant Comparison Matrix

All 1 variants of the Suzuki Dzire side-by-side. Use this to spot the smallest differences quickly — fuel, power, gearbox and price all in one view.

SPEC	Dzire GLX 1.2 CVT
