01 Overview & Quick Facts

The Starlet Cross makes a small-car decision a little more interesting. It has the compact length of a town hatchback, but wears a taller crossover body and offers a choice of manual or automatic driving. For an owner who wants something manageable around Kampala without moving into a large SUV, that is a useful starting point. Its appeal comes from size and everyday equipment, not from pretending to be a miniature Land Cruiser. Toyota Uganda lists four versions: MT STYLE, AT STYLE, MT DELUXE and AT DELUXE. They share a 1,462 cc petrol engine, front-wheel drive and five seats. The five-speed manual lets the driver choose the gear for a climb or a slow junction; the four-speed automatic removes clutch work from a crowded commute. Neither gearbox changes the number of seats or adds four-wheel drive. Decide which transmission suits the regular drivers before comparing the two equipment grades. STYLE already includes a seven-inch touchscreen, Apple CarPlay, Android Auto and Bluetooth. Four speakers, manual air conditioning, electric windows, a leather-covered steering wheel and cruise control cover several daily essentials. This...

03 Pros, Cons & Buyer Summary

● STRENGTHS ✓ Manual and automatic options in both STYLE and DELUXE grades. ✓ STYLE already includes Apple CarPlay, Android Auto and cruise control. ✓ DELUXE adds a panoramic camera, head-up display and wireless charging. ✓ Stability control, hill-start assistance and rear ISOFIX listed across the range. ✓ Compact 3,995 mm body with locally specified 190 mm clearance.	● CONSIDERATIONS ✗ Five seats only; a third row is not available in this model. ✗ Front-wheel drive and road-car hardware limit difficult-track use. ✗ The automatic has four ratios, not a CVT or six-speed gearbox. ✗ Manual air conditioning remains listed even on DELUXE. ✗ The 304-litre seats-up boot needs checking against family luggage.

Buyer Summary

"A compact five-seat crossover with four clear manual/automatic and STYLE/DELUXE choices."

The Starlet Cross gives buyers a useful two-part choice: manual or automatic first, STYLE or DELUXE second. STYLE already includes smartphone integration, cruise control and stability control; DELUXE adds more useful distinctions than decoration, including panoramic parking views, additional listed airbag coverage and driving-position adjustments. Its compact body is well worth considering for a small household, provided the rear bench and seats-up luggage area fit the real load. The main compromises are equally clear: no third row, front-wheel drive and a four-speed automatic rather than a transmission with more ratios.

City Driving	A body just under four metres long and a listed 4.8-metre turning radius are useful starting points for narrow streets. The automatic removes repeated clutch work, while DELUXE's panoramic camera can help reveal nearby kerbs and walls. STYLE's seven-inch screen already supports phone navigation. Try the driver's seat before paying for the upgrade: DELUXE adds height adjustment and steering-wheel reach adjustment, which may matter more than the larger display.
Highway	The 77 kW petrol engine and compact body are suited to a different brief from a heavy towing SUV. With passengers aboard, allow enough time and distance to pass safely; peak torque arrives at 4,400 rpm, so a lower gear may be needed on a climb. Cruise control can help on appropriate open sections but is not adaptive cruise control. The 37-litre tank makes sensible fuel-stop planning worthwhile, especially where the next station is uncertain.
Off-Road	The locally listed 190 mm clearance can help with ordinary rough entrances, but a front-wheel-drive crossover has clear limits. Sharp crests, deep ruts and loose climbs require more than a taller stance. Carrying passengers and luggage also reduces the space beneath the car. Keep speed low on broken surfaces and avoid floodwater. Regular work on difficult tracks is a reason to compare a purpose-built 4x4, not to stretch the Starlet Cross beyond its intended role.

Best For

The Starlet Cross suits a Ugandan commuter or small family that wants five seats, a petrol engine and a more upright crossover stance than a conventional hatchback. It is a good shortlist candidate for buyers moving up from a small car but not ready for a large SUV. Choosing among the four derivatives depends on whether manual control or automatic traffic convenience matters more, and whether STYLE or DELUXE equipment is worth the price difference in a current dealer quotation.
